TRYING TO GET MOOSE FOR HUGHES

THE ENTIRE FIELD OF
"SONS" OPPOSE
JURIST

TEDDY MEN STAND PAT
TO NAME ROOSEVELT
WITHOUT DELAY
AT MEET.

CHICAGO, June 5.—Political lead-
ers who profess to be willing to ac-
cept any man for the presidential
nomination who is able to command
the support of both republicans and
progressives are trying today to de-
termine whether Justice Hughes has
been strengthened or weakened by
the temporary concentration of all
forces upon him with the avowed
purpose of eliminating Colonel
Roosevelt as a republican possi-
bility. Unquestionably the effect of
the Hughes drive has been to place
the whole field of candidates against
him.

Conferences between republican
and progressive leaders which lasted
far into the night were resumed ear-
ly today, but it was not believed that
any of them had proceeded far
enough to clarify the situation within
the next several hours. At least for
that length of time no decided
change seemed imminent.

The two latest elements to be
brought into consideration today
were Justice Hughes' speech in
Washington yesterday touching upon
Americanism and discussion of Sen-
ator Lodge of Massachusetts as a
compromise candidate for the repub-
lican nomination likely to command
the support of Colonel Roosevelt.

Justice Hughes' supporters pointed
out to his speech as a substantial
declaration on the question of Amer-
icanism and contended that it cleared
up the only issue on which the
justice had not previously announced
his attitude. Those opposed to the
justice characterized his speech as
"only a list of platitudes." Many
of the latter charged that the speech
was carefully timed for the present
occasion.

The practical politicians on the
other hand almost unanimously held
to the view that the speech was with-
out significance in the present situa-
tion.

Almost overshadowing the man-
euvering among the republicans to-
day is the question of what the pro-
gressive convention will do when it
assembles tomorrow. The republi-
can leaders regard it as charged with
possibilities of the most potent sort.

On every hand they expect a tre-
mendous demonstration for Colonel
Roosevelt despite efforts in some
quarters to hold back a nomination
until the republicans have indicated
their purpose, and there has been op-
portunity for further conferences be-
tween the two factions.

Moosemen May Delay.
The movement for a delay in the
progressive convention, however, has
been met by a decision of the lead-
ers to have immediate action, or at
least not later than Thursday. Pro-
gressive leaders at a conference late
last night came to a decision that
the convention should nominate Colonel
Roosevelt as soon as nominations
could be reached in the regular
order of business and that nothing less
than a request for delay from Col-
onel Roosevelt himself should inter-
fere with that plan.

They agreed that if their program
went through and the colonial was
nominated at once, Governor Hiram
Johnson of California would take the
second place, as he did four years
ago. All of this is contingent, how-
ever, upon failure of the leaders of
both parties to agree upon a com-
promise candidate.

The movement for the immediate
nomination of Colonel Roosevelt be-
gan to show itself early today. The
progressives opened headquarters in
the Florentine room of the Congress
Hotel, from which the Roosevelt fight
was directed four years ago and be-
fore the delegates were at breakfast,
Roosevelt boosters were abroad
cheering, shouting and stirring up
demonstrations for the colonial.

Harmony Is Demanded.
All of the progressive leaders who
are striving for harmony realize the
difficulty of holding the Roosevelt
enthusiasts from a nomination be-
yond Thursday. Most of the pro-
gressive delegates were elected as
Roosevelt men and they are chafing
under restraint imposed by those
who are placing the demand for har-
mony above the interests of their
candidate.

Many conferences have been held
between small groups representing
both regular republicans and pro-
gressives and practically all the lead-

TELEGRAPH TIPS

PETROGRAD.—The Russians
continue to develop the suc-
cesses won by their newly in-
augurated offensive. It is re-
ported that up to the present
time they have captured 480
officers, 25,000 men, 17 cannon
and 15 machine guns.

CANTON.—Former Congress-
man Whitacre said today he
will run for the democratic
nomination for congress in the
sixteenth district. About a
week ago he issued a final state-
ment in which he positively
and absolutely refused to allow
his name to be used in connec-
tion with the congressional
nomination.

BERLIN.—A profound sensa-
tion has been caused by the
great speech made yesterday
before the Reichstag by Chan-
cellor Von Bethmann-Hollweg
in which he declared that any
further suggestions of peace by
Germany would be futile and
evil. All parties joined in the
ovation with the exception of
the conservatives and the social-
ists who sided with Dr. Liebk-
necht.

CARDINAL FARLEY FORBIDS DANCES

NEW YORK, June 5.—Pastors of
the Roman Catholic churches in the
archdiocese of New York received
from the chancellor today a letter
notifying them that Cardinal Farley
has forbidden under severe penalty
all dances at church entertainments.
The letter is pursuant to a decree of
the Sacred Congregation of the Con-
sistory dated March 31 and first
made public in America on May 16.
The decree of the Consistory was,
in turn, based upon the action of the
third plenary council of Baltimore
in 1885 by which priests were di-
rected "to remove immediately that
abuse in which entertainments and
balls are held for the purpose of pro-
moting pious objects."

DISTRICT FOR RICHE

Boom Pleases All Counties,
Despite Cunningham's
Decision.

By David W. Bowman.
Butt but two days remaining in
which to straighten out the tangled
situation in the Fourth district;
with three or four prospective candi-
dates still on the verge of em-
erance but waiting in the hope of
seeing Walter B. Richie enter; with
Goeks still on the fence and uncom-
municative regarding the "very in-
teresting information" which he
claims to contain "the goods" on
Cunningham; with Welty whooping
it up for Walter B. Richie and the
latter unwilling to enter unless all
others withdraw; and with Cunning-
ham flatly refusing to make way for
the latter or any other candidate,
do you remember what one William
Tecumseh Sherman once remarked
about one nation shooting at another
nation?

Things have been moving rapidly
during the last two days. Cunning-
ham has been scouting around the
district and last evening he held a
consultation with one of his young
lieutenants. Earlier in the day he
was reported at Wapakoneta. So
was another congressional candidate.
What he did is not known, but the
chances are that he is making in-
quiries as to the source of the
Richie boom. It started in the
Wapakoneta News, and began to
think it was a hoax. It was a
hoax, but even if it should appear
as a play on the part of Goeks to
turn Mr. Richie's hosts of friends
against the Bluffton man there is
no denying the fact that it has taken
like pink lemonade on a hot day at
a county fair.

Every democratic paper in the
district, with the exception of two
which are ignoring politics in order
to rectify the results of previous
overindulgence, has climbed aboard
the Richie bandwagon and grabbed
the largest saxophone available.
And the peculiar part about it all is
that some clamor for the Lima man
even if Bluffton's candidate stays in
the race. In other words, if Cun-
ningham blocks the Richie boom it
won't make much difference to them
if he does remain. So if Goeks
started the Richie parade he played
no ace, no trump, but the joker.

Witness the return of B. F. Welty
to the near-candidate list. As they
say at Battle Creek, there's a reason.
You may have noticed that he is
making more noise for Mr. Richie
than any other candidate. Cunning-
ham is making no more noise for
the Lima hanker-torrey than Taft
is making for T. Roosevelt, Est., at

THREE KILLED WHEN TRAIN HITS AUTO

Four Also Injured at Rail-
way Crossing in
Canton.

CANTON, O., June 6.—Three per-
sons were killed and four injured
here this morning when an automo-
bile was demolished by a freight
train at the Market avenue crossing
of the Pennsylvania railroad. The
dead are:

Mrs. Louise Busse, 45; Mrs. Anna
Paar, 26; George Roberts, 40. The
injured: Millard E. Campbell, 35;
Stewart Shanks, 21; Percy Miller,
26; Miss Elizabeth Hardy, 23.

All of the victims excepting Rob-
erts were in the machine. Campbell
was driving. The party was return-
ing from a trip to the country for a
birthday celebration and did not see
the train coming because the view
of the crossing was obstructed by a
street car.

The automobile was carried six
hundred feet along the track on the
engine pilot before the train could
be stopped. The two women were
thrown out and ground to death
under the wheels of the engine.

Roberts met his death in a pecu-
liar manner. He was a mill worker
and was on his way to work, walk-
ing along the tracks. The automo-
bile projecting from the pilot of the
locomotive struck him as the train
whirled past and rendered him life-
less.

REVOLUTION STRONG FIFTY ARE KILLED

Rebels Reported Satisfied
With Accession of Vice
President.

PEKING, June 6.—Yuan Shi Kai,
president of the Chinese republic,
died today. Premier Tuan Chi-Jui
immediately advised Li Yuan Hung,
the vice president, of his succession
to the presidency. Yuan Shi Kai had
been ill for several days with stom-
ach trouble, which was followed by
a severe breakdown.

Quiet prevails today in the cap-
ital. The death of the president ap-
parently solves the heated political
crisis. Li Yuan Hung's accession to
the presidency meets the demands of
the leaders in the southern provin-
ces.

Yuan Shi Kai was reported to have
been taken seriously ill on May 28.
At that time he was suffering from
stomach trouble and was unable to
eat. The president had been poisoned
but this report was denied by the Chi-
nese ambassador at Washington, who
insisted the president was not even
ill.

Yuan Shi Kai died while the
storms of revolution were gathering
in increasing strength. The revolt
broke out in December, 1915, when
the president announced his inten-
tion of establishing a monarchy and
ascending the throne as the first em-
peror of a new dynasty. His con-
stitution was set for early in February
of this year, but was postponed in-
definitely owing to the extraordinary
rapidly with which the revolt spread
through southern China. Several
attempts were made on the presi-
dent's life and a bomb plot was dis-
covered in the imperial palace.

The establishing of a monarchy
was strenuously opposed by Japan
and the final abandonment of the
plan was largely credited to the rep-
resentations made by Tokio.

The revolt progressed, however,
and in March the governors of the
Chinese provinces demanded the resig-
nation of the president. In May
the provinces of Shansi and Shan-
tung announced their independence
and a provisional government was
established by the generals com-
manding the revolutionary forces in
the south. President Yuan Shi Kai
announced on May 26 his intention
to resign when a suitable successor
was chosen. It was reported a lit-
tle later that the president intended
to take refuge in Japan, and des-
patches from Tokio said that he was
negotiating for a residence in the
Japanese capital.

WASHINGTON, June 6.—Main-
taining an attitude of reserve to-
wards the report from Shanghai of
the death of President Yuan Shi Kai,
officials of both the state department
and the Chinese legation here are
awaiting anxiously news from Pe-
king.

It was recalled by the officials
here that in the early days of the
Boxer uprising in 1900 reports from
Shanghai stated positively that the
of the foreign ministers in Peking
had been done to death in boiling
oil.

DEATH RIDES ON STORMCLOUDS IN THE SOUTHLAND

Tornado Sweeps Arkansas
and Mississippi With
Terrible Force.

FLOODS DEVASTATE LOWER SECTIONS OF WICHITA, KANSAS.

JACKSON, Miss., June 6.—Eight
persons, two white and six negroes,
were killed, and about fifty others
injured, some seriously, by a tor-
nado which swept through the west-
ern section of this city early today.
Many homes were demolished or
damaged.

Telephone reports received from
Heber Springs today say between 20
and 25 white persons were killed
and more than thirty injured in the
tornado which struck the city yester-
day afternoon. The entire west por-
tion of the city is in ruins.

The greatest destruction was re-
ported at Judsonia, a town of about
400 inhabitants about fifty miles
northwest of Little Rock on the Iron
Mountain railroad. One-third of the
town was destroyed. Twenty-five
bodies and fifty injured were recov-
ered from the debris last night. Re-
cuers, tolling in the darkness, kept
up their work all night.

A message received early in the
night said that 18 persons had been
killed and many injured at Heber
Springs, on the Missouri and North
Arkansas railroad in northern
Arkansas. The wire failed and no
further information came through
during the night.

Three white persons and two ne-
groes were killed in Dallas county in
the south central part of the state.
At Hot Springs four were killed and
eight injured. Three are known to
be dead near Cabot, between Little
Rock and Judsonia.

A white woman was killed and
fifteen were injured at Greenland in
Washington county, in the north-
western part of the state.

At Morrilton, forty miles north-
west of Little Rock, two negroes
were killed, a negro was blown
away and a white woman and several
children were injured.

Only the extreme eastern and
southern portions of the state ap-
pear to have escaped.

WICHITA, Kansas, June 6.—
Packing house whistles sounded
warning to citizens to flee to the
high ground early today. Every po-
lice man, the entire fire department,
and every available boat and motor
car were pressed into service to re-
scue marooned families along the
creeks in the northern part of the
city. Little Arkansas river left its
banks and is flooding a large por-
tion of the town.

PIOW UP MANY BULLETS.

HAGERTOWN, Md.—Farm hands
plowing near Williamsport this
spring, turned up a nest of 100 bul-
lets that had been buried by the
thirteenth Massachusetts regiment
when it was encamped during the
Civil war in Bowery woods, on
Springfield farm. Some of the caps
on the bullets were preserved and
the powder is still vital.

WAR LORD AND STAFF GO DOWN ON HAMPSHIRE NEAR ORKNEY ISLANDS

Admiral Jellicoe Says Famous
Field Marshal Was On Ship
Struck By Mine Or Torpedo

WAS HERO OF BOER WAR
Military Record Made Him Idol of British
Army, Despite Attacks of Northcliffe
On Failure of Commissary In 1914

Great Britain today is mourning the loss of her most
noted military chieftan, Field Marshal Earl Kitchener,
head of the British war office. Earl Kitchener with mem-
bers of his staff were on board the British cruiser Hamp-
shire, sunk last night off the Orkney islands and it seems
certain that he, with all others on board the warship, have
been lost.

Admiral Jellicoe, reporting on the sinking of the
Hampshire, says she was sent to the bottom "either by
a mine or a torpedo." Only some bodies and a capsized
boat had been found, the admiral's despatch announced.
While four boats were reported to have got away he ex-
pressed little hope that there were any survivors. Lord
Kitchener and his staff were on their way to Russia prob-
ably making for the port of Archangel. Supposedly they
intended to consult the Russian military authorities re-
garding the Russian offensive expected to relieve the
Teutonic pressure on Verdun and the Italian front.

London despatches indicate the probability that Sir William Robert-
son, chief of the imperial army staff, who is in London, will become the
new secretary of war. Already a Russian drive, probably planned as part
of the looked-for offensive along the major portion of the line on the
eastern front, has been begun. From the Pripiet south to the Rumanian
border where the Russians are confronted for the most part by Austrians
estimated to number between 600,000 and 650,000.

LONDON, June 6.—Earl Kitchener's private military secre-
tary, Brigadier General Eller Shaw
and Sir Frederick Donaldson.
Earl Kitchener was appointed
secretary of state for war on August
8, 1914, a few days after Great
Britain's declaration of war on
Germany. He was regarded as Eng-
land's greatest soldier, and the de-
cision of the government to entrust
him with supreme direction of the
war was received with unanimous
approval.

As the war progressed and Great
Britain's deficiencies in certain di-
rections, particularly in regard to
shortage of artillery ammunition be-
came apparent Earl Kitchener was
subjected to severe criticism led by
Lord Northcliffe.

The secretary was charged with
responsibility for failure to fore-
see the extraordinary demand for
heavy shells and as a result the
ministry of munitions was formed
with David Lloyd-George at its
head.

Earl Kitchener's responsibilities
were further lessened by the ap-
pointment of General Sir William
Robertson as chief of the imperial
staff in December of last year. It
was reported at that time that fri-
ction had arisen between Earl Kitch-
ener and Field Marshal French, then
in command of the British forces in
France.

He was born June 24, 1850, in
County Kerry, Ireland, a fact that
gave rise to a general belief that he
was of Irish blood, but his parents
were of French and English descent.
His father was a soldier, but of no
very high rank. He had managed
to climb to the lieutenant-colony
of a dragoon regiment, when he re-
turned to the estate in Ireland where
Horatio Herbert Kitchener, the to-
be-distinguished one, was born.
Young Kitchener received his edu-

CITY EMPLOYEES GET INCREASED SALARY

Schedule Shows Raise For Three Public Service Departments.

The pay roll of the city will be increased thousands of dollars a year, if the city council insists upon granting demands of certain employees. Last night the council, on the recommendation of the finance committee, agreed to grant members of the police and fire departments increases that are to become effective July 1.

Just preceding the vote on raising the salaries of the above employees, communications from Service Director Metheny and Assistant Engineer Vaughn Miller asking that they each be granted an increase of \$25 on the month, were read to the council. Both of the requests were referred to the finance committee.

Figures compiled as a result of the increase granted last night by vote of the council show that it will call for the expenditure of \$11,625.60 more than formerly paid to city employees. If the requests of the other two city officials asking for raises are granted by the council, the total increase will be \$12,535.60. The monthly increases effective July 1, are as follows:

Position	Old	New
Superintendent	\$110	\$115
Secretary	100	110
Asst. Secretary	75	90
Chief engineer	110	125
Engineers (3)	80	95
Firemen (3)	65	75
Pumper	60	70
Chemist	80	85

The total increase in this department for the year will be \$1,728.

Position	Old	New
Chief	\$100	\$115
Captain	95	100
Sergeants (3)	85	90
Patrolmen (15)	75	85

This will mean an increase in expenditure in salaries to this department of \$2,484. Although there are 20 patrolmen in the department only 16 will benefit because of the one-year clause.

Position	Old	New
Chief	\$100	\$115
Asst. chief	90	100
Lieutenants (4)	75	80
Engineers (2)	80	90
Firemen (23)	75	85

The total for the year shows an increase of \$4,458 which will be paid out in salaries.

In the service department there are 29 men that will benefit by the increase. Each of the laborers under the service head will receive an increase of 4 cents an hour. The total increase amount to \$3,225.60 for this department.

THE IDLER

Harry Altschul, Frank Kominski, Samuel Michael and Simon Fishel purchased a lot just north of the Market house, on which it is their intention to erect a three-story business block.

Boys of their city who wish to be allied with the base ball teams at the public playgrounds this summer will meet at Faurot park Wednesday afternoon at 1 o'clock to arrange for a team. A team may also be organized at Lincoln park.

F. C. Moyer, owner of a meat market at the corner of Jackson and McKibben streets, was fined \$25 and costs in the court of Justice of the Peace Hamilton, yesterday, when found guilty of a charge of selling adulterated hamburger. The arrest was made upon an affidavit sworn to by State Food Inspector L. W. Stewart.

Members of the Y. M. C. A. building committee, Robert J. Plate, Henry G. Wemmer, Henry Enck, Henry A. Mack, B. F. Thomas and E. J. Maltre, and Frank Eberhardt, secretary of the Y. M. C. A., leave today for a two-day inspection trip of Y. M. C. A. buildings at Canton, East Liverpool, Youngstown, Cleveland and Elyria.

Benjamin Roberts, brakeman on the Cincinnati, Hamilton and Dayton railroad, while adjusting the brakes on a car at 2 o'clock this morning, suffered injury to a limb when a piece of the iron fell and struck him. He was removed to the hospital in the Williams and Davis ambulance.

A marriage license was issued yesterday to Earl Frank Stephens, 21, baker, of 310 East High street, and Mabel Catherine Bowsher, 20, cigar-maker, of Allen county. Justice C. P. Morris married the couple.

A daughter was born at the hospital last night to Mr. and Mrs. Coryl H. Baker (Myrtle A. Cloore) of 1050 North West street. Mr. Baker is an interurban conductor.

William Dettrick and Carl Harstuf were arrested last night on charges of petty larceny. Police allege that they stole a quantity of copper wire and an electric fan from one of the local cigar stores. Both of the lads will receive a hearing in criminal court tomorrow morning.

Charles Carr, arrested yesterday on a charge of stealing a motorcycle, pleaded not guilty to the charge in criminal court this morning and was bound over to the grand jury under \$200 bond.

domestically military education at Westwick, where he displayed only ordinary brilliancy, with the exception of his liking for mathematics. On graduating he received a commission in the Royal Engineers, but when not yet 31 years of age he attached himself to a French army in the Franco-Prussian war. He had been in the service only a short time when he contracted pneumonia during a balloon flight, and had such a protracted and serious illness that he had to give up further service for France. Kitchener's experience in European warfare—prior to his direction of the great war of 1914—therefore, had been limited despite a few balloon flights in France.

First Activities.
In 1874 when a British expedition was sent out to survey Western Palestine, Kitchener was one of the eager volunteers accepted for this service. For months he traveled over the hills and valleys of this peaceful little land with his theodolite and surveying tape, and with this life in the open he grew to be a tall, gaunt soldier with a hard face well burned. His contribution to the topographical knowledge of the Holy Land completed, young Kitchener was sent to Cyprus which Great Britain had just acquired, to organize a system of courts, a work in which he displayed administrative ability and tact.

While there, in 1882, that he took his first step on the path that was to lead him eventually to Khartum. Trouble was already brewing in the Sudan. Hearing that the Egyptian army was being organized by Sir Evelyn Wood, young Kitchener saw his opportunity with a surging instinct and lost no time in offering his services. The military authorities, recognizing at once his insight into the native character, put him in the intelligence department, and from the very outset of his Egyptian career negotiations of the utmost importance were entrusted to him and carried out with inviolable success. As an intelligence officer Kitchener accompanied Sir Herbert Stewart's desert column on that heroic but disastrous enterprise known as the Gordon Relief Expedition—the relief of General Gordon from Khartum where he had been entangled during the evacuation of the Sudan. Kitchener deeply took to heart the lessons of this fiasco, with its failure of transport and intelligence departments, and avoided these troubles in the expedition which he himself led some years later. In the meantime Kitchener was employed in innumerable fights and raids against the dervishes or Mahdists of Southern Egypt. In 1886 he became governor of the Red Sea territories and set in motion a series of raids on the notorious Osman Digna, the dervish leader. In one of these raids Kitchener's men were flanked, and put to flight, during which he received a bullet which broke his jaw.

First Home Returned.
By this time much was heard in England of Kitchener's work in Egypt and when he returned there for a short rest he was received with honor and nominated aide-de-camp of Queen Victoria. With his health recruited, he went back to Egypt where, on the resignation of Sir Francis Grenfell, he was appointed Sirdar (Commander) of the Egyptian army. His really great career dates from that time.

As an instance of the self-confidence with which Kitchener undertook his tasks in Egypt is recalled how he dealt with the war office as few generals before him ever dared. On one occasion he sent home for a special kind of gun. The war office suggested another kind. The Sirdar repeated his orders. Next he was informed that the war office guns had been forwarded, whereupon he dispatched a politely insolent message home saying that he was very grateful, but the war office could keep its guns. His message read: "I can throw stones at the dervishes myself." As a consequence, the guns he asked for were forwarded without delay.

The Kitchener campaign that ended with the recapture of Khartum was considered by military experts as perfectly organized and faultlessly conducted. The Egyptian army that Kitchener had worked up to such remarkable efficiency was, when he first took charge of it, a band of unpaid, unfed and undisciplined fellows. It was said to be an army "without stomach, heart or backbone," but Kitchener worked over these helpless reeds of broken natives and made of them some of the finest of black battalions.

The fight at Omdurman, September 2, 1898, just across the Nile from Khartum, was the greatest battle of Kitchener's time in Egypt. Osman Digna faced him with 50,000 Mahdists, while he had but 20,000 men. When the battle was over, 11,000 of the Mahdists had been killed outright, 16,000 wounded, and 4,000 taken prisoners, while the English and Egyptian loss altogether was under 500 men.

Raised to Peerage.
For his triumphs in the Sudan he was raised to the peerage as Baron Kitchener of Khartum, and received the thanks of parliament and a grant of \$150,000. Shortly afterward he was promoted Lieutenant-General and then Chief of Staff to Lord Roberts in the South African war, and on Lord Roberts' return to England in November 1900 succeeded him as Commander-in-Chief in that field. By constructing a 3,500-mile chain of block houses he stopped the Boer raids and virtually ended the war in South Africa. This added to his popularity and prestige at home, and he was rewarded by the title of Viscount, promotion to the rank of General for distinguished services, the thanks of the parliament and a grant of \$250,000.

Immediately after the peace General Kitchener went to India as Commander-in-Chief of the British forces there, and in this position which he held for seven years, he

NEW SCALES PUT IN AT MARKET HOUSE

Herboltzheimer Can Now Weigh Any Load Under 25 Tons.

New scales, capable of weighing up to 25½ tons, have been installed just south of the market house, and Marketmaster John N. Herboltzheimer announces that before tomorrow evening he will be ready to weigh any wagon-load under that figure.

The old scales broke down Saturday, and the new set was called into play yesterday, although the approaches had not yet been completed by the elevation of the sidewalk. A test was attempted yesterday, but ten and a half tons was the total weight which could be secured, although the south side fire truck and all persons in the marketplace were utilized. B. A. Gramm, of the Gramm-Bernstein plant, has promised to furnish the required weights in a few days, so that a capacity test may be undertaken.

Although the new scales will weigh a load of 25½ tons, they are marked at a capacity of 20 tons. The complete set was secured at a cost of \$560.

AMBULANCE TRIP.

The Siford invalid coach made the following removals:
Mrs. Urbana Tamm was taken from the home of her daughter, Mrs. Frank Mertz, on Bellefontaine avenue, to the home of her son, John Tamm of South Pine street. Mrs. Tamm is in a feeble condition.
Eugene Burnwell was removed from the hospital to his home at 683 South Main street.
Mrs. Judy was taken from the hospital to her home on St. Johns avenue.
Mrs. Caille Stevely was removed from 1108 West High street to her home at 249 North Jameson avenue.
Frank Drake was taken from the hospital to his home, south of the city.

SCHOOL FESTIVITIES BEGIN WEDNESDAY

Festivities marking the close of school will start Wednesday night, when the big Shakespearean pageant, in which Seniors of the High school will take part, will be given at Memorial hall.

Graduation exercises for eighth grade pupils will be held Friday morning at 9:30 o'clock. They will be given diplomas, showing they are qualified to enter High school next year. There are over 300 such graduates. The address will be delivered by the Hon. Frank H. Pearson of Columbus, who will speak at the commencement exercises in the evening.

MARRIAGE LICENSES.

Marriage licenses were issued today to the following:
Frank Butta, 22, draftsman of 637 North Jameson avenue, and Ruth E. Cook, 21, clerk, of 1832 West Market street. The Rev. M. C. Hovey to officiate.
Bry Elmer Lucks, 34, laborer, and Iona Olive Anderson, 17, cigar-maker, both of Lima. The Rev. G. W. Lilly to officiate.

ERNST C. HAGEMAN KILLED BY ELECTRIC SHOCK AT LAKEVIEW

Estimable Young Man of South Side Meets Death.

High Tension Wire Sends Fatal Volta Into Busy Worker.

Funeral services for Ernst C. Hageman, 23 years old, electrician, who was instantly killed at Lakeview yesterday, will be held on Wednesday afternoon at 3 o'clock, at Grace Methodist church, where the young man held membership. The Rev. Warren J. Dunham, his pastor, will officiate at the services. Solar lodge of Odd Fellows, of which he was a member, will conduct their funeral ritual over the body. Burial place has not yet been decided upon. He was a son of Mr. and Mrs. Frank Hageman of 755 South Broadway.

While installing electrical work in a room to be used as a bakery in Lakeview, a wire came in contact with the high tension wire of the Ohio Electric railway, which furnishes the town its light and power. A cloud of smoke rose from his body and helpers at once realized that he had been electrocuted. First aid was given him when the body was at last taken from his perilous position, but life was extinct as soon as the wire touched him.

The Siford ambulance removed the body to Lima. Today the remains were taken from their mortuary to the home of the parents on South Broadway.

The blow falls heavily at this time upon Miss Ada Ramsbottom, daughter of Mr. and Mrs. A. L. Ramsbottom of 334 West Kibby street, whom Hageman was to have married before long. Their marriage engagement, while not publicly announced, was known to their friends. The young woman is heartbroken, as are also the parents of the young man. He has a sister, Miss Francis Hageman, who is a gifted reader. Charles Hageman of Bellefontaine avenue, is a brother.

In the department of Grace church where he did such efficient work, and in social circles over the city, Hageman was well known and prominent. His death created genuine regret.

Up to the first of the year he was manager of the electrical department of the Jones Hardware company. He has since been engaged in the electrical business for himself. He was born February 1, 1893, in Lima, and attended the Lima public schools. His parents are prominent in the work of Grace Methodist church, and on the south side his family is well known.

PERSONALS.

Mr. and Mrs. S. R. Buchanan, the former of whom has been made manager of the New Bremen Telephone Company, have moved to that place from Lima and are living on South Main street.

William Kidney has returned from Delphos, where he went for an over-Sunday visit with his parents, Mr. and Mrs. H. P. Kidney.

Mrs. Margaret Decker and children, Mrs. Ella Webb and children and Fred Decker have returned from Delphos, where they attended the funeral of Henry Decker, held Sunday afternoon in the Presbyterian church.

HERBOLTZHEIMER IS OUT AFTER SCALES

City Scales of Weights and Measures, John N. Herboltzheimer, accompanied by Assistant State Scales John Molte, of Columbus, yesterday confiscated 99 weights in the possession of local druggists. Their inspection was made Saturday and completed yesterday.

According to Herboltzheimer, the confiscation was not made because of false standards of weight employed for cheating the purchaser, for many of the weights gathered up were inaccurate on the side of the customer, the dealer being the loser. The imperfect standards were collected to prevent mistakes in the filling of prescriptions, for in the compounding of ingredients a slight overweight of dangerous substances might result fatally to the individual taking the prescription.

MASONIC NOTICE.

Stated assembly of Lima Council No. 20, R. & S. M., this evening. Work on royal and select master degrees. Officers and members are requested to be present. Visiting companions welcome. John W. Newell, Thos. H. Master. Wallace Landis, Recorder.

COUNCIL AUTHORIZES LOAN OF \$238,000

City Will Construct Sidewalks Where Owners Neglect Duty.

City Auditor Rupert reported last night to council the sale of \$250,000 worth of bonds to Broad, Elliott & Harrison, a Cincinnati firm. This leaves a remainder of \$400,000 of the municipal bonds to be disposed. The lot that were disposed of yesterday were sold at 4 per cent.

The auditor was instructed last night to borrow \$238,000 to pay the property owners' share of paving projects, which will be undertaken this summer.

City Solicitor Light was instructed to draw up an ordinance giving Metheny power to construct concrete sidewalks, where property owners refuse to make such an improvement. When such action is taken by Service Director Metheny the cost of the improvement will be charged to the property owner who fails to comply with the ordinance.

Paving of the following streets was authorized:
State, from Cole to 200 feet east of Charles; Fairview, from St. Johns to Sugar; Prospect, from Elm to Kibby; Washington, from High to the Pennsylvania railroad; Charles from High to Wayne; Ritchie, from Charles to Cole; Haller, from McCall to McDonald; Franklin, from Harrison to end; Court Alley, from North to Wayne; and Metcalf from Market to North.

The following petitions were submitted to the council: Gas light on East Spring street, between Main and Union, from Mrs. Elizabeth Kell; to tap a sewer on North Main street from Henry Hall; for the paving of Holmes avenue, from St. Johns to Carlisle, from Carlisle to Sugar, and from St. Johns to Reese, from property owners; and for arc lights on Second street, at the intersections of Milburn, Hughes, Reese, Tanner and Highland, from property owners.

WELTY NOT OUT FOR CONGRESS IF RICHIE WILL RUN

(Continued from page one)
Chicago. In other words, if Cunningham kills the Ritchie peace movement by being the only candidate to stay in the race, Welty will be able to claim the support of the backers of Mr. Ritchie. Not only that—as intimated before, Welty's memory is probably no shorter than that of the average man, and the chances are that he can remember what Cunningham's entrance did to him in 1910.

Welty is getting just active enough to look like a certain entry. When candidates begin to survey the field of battle it is generally for the purpose of picking out an elevated spot with good drainage where they may erect their tents. And today he opened up and uttered some utterances. Gracefully submitting to an interview, Welty urged the unanimous selection of Mr. Ritchie, but managed to make some allusions.

When a reporter called at Mr. Welty's office and asked him, point blank, if he were a candidate, he said:

"A candidate should not seek that or any other office because of the salary attached thereto, or the honor which the office will bring to himself and his immediate family."

"The question with him at all times should be, 'Can I serve in that capacity better than those who are now offering themselves for the place?'"

"I note with pleasure that Mr. Ritchie is willing to offer himself as a candidate, provided all candidates are willing to withdraw."

"Now why is he not better fitted for that position than any available person? He is ripe in years, when personal ambition no longer consumes him. He is along in life when his only ambition is to serve his fellow man. He has unconsciously prepared himself for this position, and will not only reflect honor and credit upon the Fourth district but the country at large. We must have men in these trying times who most nearly represent the American spirit. I think that he is far preparedness, but not for compulsory military training. He, more than any other man I know who is available in the district, represents the spirit of the people of the Fourth district."

"Why not everybody go back of Mr. Ritchie, not for one term but so long as he can serve the people better than any one else?"

"Why should he not die in the harness where he can be of so much service to the people?"

"If Mr. Ritchie agrees to become a candidate I shall surely and most cheerfully volunteer my services, and stump the district if necessary."

"You tell him for me that his friends are legion and that they will carry on the battle for him."

And then Welty declared: "Allen county will never get any where if we can offer only candidates who want the office to gratify a personal ambition. The man who attempts to take the place of another, when that other can serve the people best, is robbing the people of good and efficient government and not one whit better than a thief who robs an individual."

"So, do you blame me for not offering myself as a candidate so long as I see others who can serve the people better than I?"

Aspirants for places on the county tickets are beginning to fill up the ballot. J. F. Cupp is the third man to enter the race for the democratic nomination for the office of county engineer. E. A. Miller, of West Cairo, and Elmer Hilly, of Bluffton, are the others, while John G. Tate is said to be considering the proposition.

WELTY NOT OUT FOR CONGRESS IF RICHIE WILL RUN

The signers on Cupp's petition are: John A. Mohr, R. L. Plethier and F. A. Burkhardt, of Lima, R. W. Enslon, of Sugar Creek township, and C. Louth, of Spencerville.

For the republican nomination for the job of prosecutor, John L. Cable is the only aspirant. On his petition are: Harry D. Bentley, Eugene T. Lippincott, D. W. Day, Hugh L. Simpson and Fred Bizzanti, all of Lima. For the democratic ticket as a candidate for commissioner, John K. Williams, of Delphos, is the third entry, his backers being Joseph Jettinoff, A. J. German, B. Fakke, L. L. Leitch, D. A. Whitsett and W. C. DeWeese, all of Delphos.

Dr. Burt Hibbard, south side booster, is after the coroner's position, and seeks the democratic nomination with the following signers on his declaration of candidacy: W. H. Leete, Clarence Haller, D. H. Tolson, Joseph Askins and John W. Shaanahan, all of Lima. Sheriff Sherman Eley, candidate for a second term, has also filed his petition, his democracy being attested by John W. Red, Fred C. Hoegner, J. A. Miller, Gust Sears and James E. Duffield, of Lima, and R. M. Harpster, of West Cairo.

The state tickets are also beginning to fill up, the office of Secretary of State Charles G. Hildebrand announcing several entries this morning. Joseph McGhee, of Jackson, assistant attorney general under Timothy Sylvanus Hogan and the nominee two years ago, is endorsed by James E. Campbell and Judson Harmon, former governors, and Democratic National Committee member Ed. H. Moore. He seeks another nomination for the attorney generalship. George C. Braden, of Warren, has filed his claim for the auditorship nomination, and it is not improbable that Auditor A. Vic Donahue will seek a second term. Earl D. Bloom of Bowling Green, wants to be the democratic nominee for lieutenant governor, and Colin C. Meekison, of Napoleon, is out for the secretaryship of state. He is a new entry and will have company in the race.

Harry R. Probasco (pronounced to rhyme with tobacco), of Cincinnati, has announced his candidacy for the republican nomination for the United States senatorship. This gives the Queen City two candidates, the other being Judge D. D. Woodmansee. With former Ambassador Myron T. Herrick and Harry M. Daugherty of Columbus and Washington Court House, in the race, to say nothing of former Senator Charles William Frederick Dick, the G. O. P. will find a lively little senatorial battle to weaken the state ticket, especially in view of the presence of two anti-Willis aspirants for the governorship.

PYTHIAN SISTERS AT DELPHOS.

Members of Lima temple of Pythian Sisters, numbering about 35, went to Delphos this afternoon at 1:15 o'clock, where they will exemplify the degree work for a class of candidates tonight. The meeting will be held in Pythian hall at Delphos.

Dinner will be served Delphos temple and visitors from Lima to-night at 5:30 o'clock. The Lima party will return to the city by way of the Ohio Electric railway after the conference of degree work. Mrs. Edward Stump, captain of the degree team, led the Lima party.

DOMESTIC TRAGEDY: WIFE DIES, MAN LIVES

WASHINGTON, June 6.—Rear Admiral Caperton, commanding the American fleet in San Domingo advised the navy department today that a rebel force of 300 attacked the marine camp at Monte Cristi yesterday. The rebels were driven off, seven of their number being killed. There were no American casualties.

RAILWAY MEN SHOW HAZARDS RUN BY FREIGHT EMPLOYEES

A Trainman Killed Every
Four Hours; A Cripple
Every 3 Minutes.

Figures Tell What Freight
Men Get Compared With
Other Workers.

CLEVELAND, Ohio, June 5.—A statement issued today by the Railroad Transportation Brotherhoods shows that freight train employees have one of the most hazardous of all occupations.

Railroad officials lay much stress on the statement, that 18 per cent of all railroad employees now receive 25 per cent of the total wages paid.

This claim means nothing whatever, because it fails to take into consideration the years of preparation for the job and the fact that the line between life and death is so thin that when a train employee leaves on his run, he is never sure when he will return.

The last report of the Interstate Commerce Commission shows that a train man is killed on an average of every four hours and forty minutes, and a man crippled every three minutes and 30 seconds. And this does not tell all the story, because if a man does not die from his injuries within 24 hours, he is not reported to the Commission as killed and unless the injury disables him for three days he is not counted as injured.

Out of every 100 men who start work as firemen only 17 ever become engineers, out of every 100 men who do become engineers, only 6 become passenger engineers.

The average length of service is 11½ years.

Train service employees are picked men in every sense of the word. Few realize the rigid physical examination they are required to pass and which is more severe than the United States government requires for enlistment in the army or navy.

Physical examinations are repeated every two or three years. Eyesight, hearing, color perception, heart action and blood pressure are all scrutinized closely.

Although the United States government prohibits by law the continuous employment of a train employee more than 16 hours, it is worthy of note that in 1915 there were 78,940 violations reported by the railroads themselves.

Under the rates of pay now received by the men, they must work

British Explorer, Ship Crushed in Weddell Sea.

Sir Ernest Shackleton, who set out five men safe on Falkland Island in nearly two years ago to cross the Antarctic continent from Weddell to Ross sea, but who it was feared had been lost, has reported himself and

from 12 to 20 hours in order to earn enough to be on a par with the wage earners in other trades.

What a man receives per hour is the only proper basis for discussing wages. The following table shows the prevailing wages received per hour by freight crews as compared to other trades:

Locomotive engineers	48½c
Bricklayers, plasterers	75c
Locomotive firemen	31c
Carpenters, painters, etc.	70c
Freight conductors	40c
Laborers in tunnels, wells, etc.	37½c
Freight brakemen	26.7c
Excavating laborers	40c

Are these high wages when you consider the responsibility and skill required of freight train men?

Excessive hours and the terrific strain shatters the health and shortens the lives of these men.

The employees are not asking for more pay, only that their working hours be made less.

They desire relief from the present arduous working conditions so that their time at home will be lengthened and their chance of relaxation improved.

The mandate requires the students to return to China within two months after their graduation.

MRS. COON'S BURIAL LARGELY ATTENDED

Residents of Beaverdam, friends from the entire country-side and

members of the Methodist church filled the auditorium of the little house of worship this morning at Beaverdam to pay their last tribute of respect to all that was mortal of Mrs. Sarah A. A long cortege of people in carriages accompanied the body from the farm home, a quarter of a mile west of Beaverdam, to the church. Services were set for 10 o'clock, but long before that time the church was filled with people.

RICHIE FOR CONGRESS

Heroic efforts are being brought to bear to draft the Hon. Walter B. Richie for the Democratic congressional nomination. It has been suggested from the Goeckel camp that all candidates withdraw in favor of the Lima banker and jurist, thus healing the split of 1912 and guaranteeing a great majority in the Fourth district. All save two have accepted these terms—Dr. Hunt, who matters little, and N. W. Cunningham, whose response is limited to the trite phrase: "Nothing doing."

Today forces, too powerful to be ignored, are lining up the district for Mr. Richie with little regard for whether or not the Bluffman insists on blocking the harmony movements, and it may be that the former will be a candidate without waiting for the elimination of the latter.

Mr. Richie has for many years been an ardent supporter of every booster idea, every improvement plan, every good thing inaugurated in his home city. He has been the most highly respected and universally admired man in the Democratic party of Allen county. Professionally and fraternally his name is familiar in every corner of the district. Hundreds of Republicans would rally to his standard, and his nomination would be too inevitable to need attention. And the Fourth district, which has a high mark of 75,000 Democratic majority, would break the former record.

It is certainly to be hoped that Mr. Richie will become a candidate without opposition. At any rate, the best man in the Fourth Ohio district to serve at Washington is Walter B. Richie of Lima.

HOW PATRONAGE WORKS

Insidious attacks on Senator Atlee Pomerene, taking the form of the candidacies of John J. Lentz and Frank S. Monnett, tell a story of one of the flaws in our present governmental system. By combining the distribution of petty jobs and two-by-four appointments with the function of lawmaking we make the task of a senator a dull, and withal a self-destructive, position.

Atlee Pomerene ranks among the best legislators the senate has received from Ohio since the Rebellion. He is as strong in his convictions, as brave in his beliefs, as any since the days of Allen G. Thurman, and the only reason he lacks the political prestige of Hanna or Sherman is that he is not built for chicanery or intrigue. He will never go down in Ohio annals as the master mind of a great machine, but when it comes to drafting measures, committee work, conscientious voting and supporting the attitude of the Wilson administration he looms up as one of the leading figures of the upper house of the federal legislature.

Now if Pomerene is defeated—and it seems impossible that a great state committed to the policies of President Wilson should turn down his leading representative—it will be an account of his patronage decisions. Every disgruntled politician who failed to get the postoffice in a crossroads holds Pomerene responsible, when as a matter of fact Postmaster General Allen S. Burleson is the real factor in such cases. That a group of self-seeking political manipulators should declare war on a man of Pomerene's type for motives of personal vengeance indicates that the system should be changed.

This indicates the flaw in our method of scattering the plums. To expect a great legislator to be bandied about at the wish of small fry "loaders" is to hamper his usefulness, and it is by rising above the latter that Pomerene has become the foremost support of Wilson in the senate. We believe that he will be re-elected despite the opposition of Lentz and Monnett, one of whom

is under indictment for neutrality violations. Perhaps the Columbus men will offset one another, but at any rate if a lawmaker is seriously handicapped by job-brokers the patronage should be divorced from the legislative arm of the government.

POOR OLD G. O. P.

When a political party launched to save the nation, headed by a Lincoln and productive of the great figures of the post-bellum era, knells at the feet of a member of another party, a deserter who has wrecked the old organization and can demand the power of dictating a nomination—that party is in a bad way.

Today at Chicago we see the once haughty G. O. P. at the mercy of Theodore Roosevelt, who wrecked the party in 1912 and is now just strong enough to knife the Republican nominee unless he is himself chosen. By his trust-backed third party he holds a balance of power which demonstrated in 1912 its ability to throw an election.

Roosevelt is not a Republican, for he is still a member of the Bull Moose party. Yet in 1912 the latter ticket carried five states, including Pennsylvania and Michigan, totalling 80 presidential electors. Taft received one-tenth of that vote, securing a miserable eight electors from the two lonesome states of Utah and Vermont. Only the Mormons saved the former state for him, Reed Smoot checking the adverse tide.

Today the great G. O. P., casting here and there for a candidate, hears Teddy say: "I picked one gold brick and I won't pick another," indicating that Hughes is a "Wilson with whiskers" whom he will not support. What he means is that he will support any man who has had seven and a half years' experience in the White House. A sorry plight for the party of Lincoln and Grant. Hayes and Garfield, when it must let a deserter and outsider pick the nominee, which can be only himself.

If all the candidates were as handsome as the pictures on their cards visiting foreigners would believe us a nation made up of the descendants of Beau Brummel, Adonis, Apollo, Napoleon and Julius Caesar.

Americans in Mexico are said to be raising a fund to help Teddy. They're not helping Roosevelt—they're helping Perkins, Gary, Armour and the rest of the old Wall Street gang.

Speaking of what Sherman said about countries fighting one another, think of the plight of the poor candidate who is half way across a ploughed field when a storm breaks.

Late reports make Great Britain the victor at Skager-Rak. But you may have noticed the customary difference in the British and German statements.

No one has yet started a Taft boom at Chicago on the grounds that he was beaten for his second term four years ago.

At any rate, short skirts have their advantages—they leave the hands free at street crossings on rainy days.

Teddy infers that Hughes is a gold brick. He ought to know one when he sees it—he handed the nation enough.

Penrose is for Teddy or someone like him. Where in (insert Sherman definition of war) can he find another man like him?

GOOD EVENING: Cheer up—if you did get to Chicago for the big show it would set you back several hundred wafers.

NEW NOTES & MOVIELAND

By DAISY DEAN

THE Annette Kellerman picture, which cost \$1,000,000 and took six months to produce, is going to be released before many weeks. The Fox publicity man speaks of the picture in the following eloquent words:

"The effect that this picture will create in your mind will be a multiplication of the wonderful pictures you would gather in an evening of reading the more imaginative scenes and descriptions from the Moorish and Turkish stories of Pierre Loti, Burton's Arabian Nights and the atmospheric beauties of the master word painter of a newer generation—Robert Hichens, author of 'The Garden of Allah,' 'Barbary Sheep,' 'The Call of the Blood,' and many other equally tense descriptive novels.

"Influenced by none of these stories directly, Herbert Brenson, with his remarkable capacity for depicting the unusual and the beautiful, nevertheless has created in his own mind a story embracing the more entrancing and memorable beauties of those that have been enumerated."

Do You Know That: Alice Brady was tutored for a social life—and went on the stage against her father's wishes? Thomas A. Edison is working on a new and more satisfactory camera?

Mary Miles Minter has been fourteen years old for five years? And that her real name is Juliet Shelby and she was a stage player at the age of twelve?

Lorna Volare is the youngest actress in the world—age three? John Ince made a picture, "The Cowardly Way", with two hundred double exposures?

Anna Pennington, Ziegfeld dancer, soon to be a Famous Player star, says she knows more about Dickens than about Broadway, and that her favorite novel is "David Copperfield". However, it wasn't art that induced her to act for the movies. When asked what led her to take to this new career she said, "I needed a new car."

CHARLES ISLAND

Charles Island is one of the curious little Galapagos group that lies in the western Pacific almost exactly on the equator. The whole of the archipelago is an interesting field for the traveler to visit and explore but Charles Island is the most interesting of all. It is uninhabited today; every attempt to colonize it has ended in death and disaster, as though some strange fatality hung over the pleasant little rock. It is a mausoleum of dead romance, and the ghosts of its victims must certainly haunt it still, if they are haunting any place. Charles Island offers ideal attractions to ghosts. The oldest inhabitants of all are still here—the gigantic tortoises from which the whole group takes its name, and which are found only here on one other island in all the seas. Besides this philosopher creatures who attain a fabulous age and an immense size, there are several varieties of domestic animals running wild on Charles Island. Here you may shoot wild cattle as buffalo used to be shot on western plains. There are wild donkeys, wild pigs, and wild dogs, all the descendants of beasts brought by unsuccessful colonists.

One of the most interesting instances of wits matched against wits to be seen in the animal kingdom arises when a pack of the native dogs try conclusions with a tortoise. The tortoise is not built for aggressive warfare, but he is splendidly equipped for home defence with a shell imperviously thick. When the dogs assault him, he withdraws head and legs into his shell and adopts a policy of watchful waiting. After his patience is exhausted he cautiously pokes one foot out. If the dogs are still there they attempt to seize it. If the pack can get a hold on all

HEALTHHINTS

CODE IS A GOOD HEALTH GUIDE FOR CHILDREN

Here is a health code prepared expressly for children for the summer months, but it might well be followed with profit by grownups:

Sunshine—Sun yourselves, your clothes and your rooms. It will stop the growth of the germs of sickness.

Milk—This is the best food for growing children. Drink at least three cups a day.

Clothing—Dress lightly with clothes that allow plenty of freedom for exercise and play.

Dirt and dust—These are the carriers that carry disease. Avoid

them if you would sleep well.

Sleep—Sleep with all the windows open, top and bottom. Go to bed early. Get at least nine hours' sleep.

Bathing—Bathe once a day.

Air—Be in the open air every minute that you can. No inside air is ever as healthful as that of the outdoors.

Play—Play every day and always cut of doors if you can.

Food—Wash your hands always before eating. Eat slowly and chew your food thoroughly.

Alcohol and tobacco—These cause lack of attention and swiftness of nerve and stop growth.

Water—Drink at least four cups every day—better six.

Mouth, nose and teeth—These are the doorways of disease germs. Brush teeth night and morning.

Pass this on the inside of your textbook and live up to them.

Do you know that—you should save the country for the babies and the babies for the country?

U. S. BRITISH PACT BEFORE WAR ENDS SEEN BY TEUTONS

Alliance Between America
and England Predicted
by German Writer.

Correspondent Says Public
Opinion's Ruled by
Britain.

BERLIN, June 5.—The Vossische Zeitung publishes a long article from New York which escaped the British censor. The correspondent predicts that an alliance between the United States and England will become an accomplished fact before the war ends.

After attacking the attitude of President Wilson and his cabinet, the correspondent says:

"Public opinion in America has been dominated completely by British influence since the first days of the war. The financial circles and society, which exert a tremendous influence upon the government, are more English than high finance and the aristocracy of England."

"The press, with a few notable exceptions like the great Hearst newspapers, receives its orders from the pro-British money kings and makes no pretense of neutrality. It vociferously demands that the United States join the allies to save England from defeat and humiliation."

"There is absolutely no hope that German will ever get a fair deal in America. Although the German government has proved time and again that it wants to remain on friendly terms with the United States, the New York Times, the Tribune, the Herald continue to shout for war and they are encouraged by the government in Washington."

"Everything Germany does is distorted and falsified. Day after day the press repeats in new form the same old lies with which England has flooded the country since the beginning of the war. The official reports of the German general staff are discredited and ridiculed while the newspapers 'play up' the most glaring facts of English correspondence."

"The position of the citizens of German extraction has become almost unbearable, since even President Wilson did them the injustice to brand them as a despicable horde of traitors in a speech before congress."

"A regular system of espionage makes life miserable for most German Americans of any prominence. Telephones are tapped, offices and homes burglarized and the mails rifled in the search for 'German plots'."

"This espionage is conducted by British secret service agents, who seem to have been given an absolute free hand by the government and the police. All complaints against the crimes committed by the army of private detectives employed by England in New York and throughout the country are ignored by the authorities. The government does not even take the trouble to investigate proved theft of letters from the mails."

"It would be wrong, though, to charge the American people as a whole with unneutrality. They have very little to say. The policy of the government is not influenced by the will of the people, because the 'big interests' rule supremely and they are already in closest alliance with England."

"An open political alliance between the United States and England is inevitable. The movement is not only supported by society and the money kings of Wall Street, but also by a number of organizations, whose influence is far stronger than the general public knows and reaches into congress and the White House, are the Society of Mayflower Descendants, the Order of Descendants of Colonial Governors, the Order of Washington, the Society of Daughters and Patriots of America and a number of others."

"Since the pro British propagandists see that they probably cannot bring about the active participation of the United States in the war they try to hasten the conclusion of the British American alliance so that the American government will be able to veto the peace conditions of the central powers, if they should win the war."

**BANDITS 'ROB' 40 IN
A GAMBLING DEN**

CLEVELAND, O., June 5.—Three armed bandits broke up a gambling game at the Prospect Social club, located in the heart of the city, early this morning, held up and robbed forty visitors, relieving them of \$500 variously estimated at from

\$1,000 to \$5,000 and made their escape in an automobile.
The three robbers, each armed with a brace of revolvers lined the forty men up against a wall after firing several shots into the walls and ceiling, and while two robbers "covered" the victims, the third robber went down the line and relieved the forty of their money.

C. H. & D. EXHIBITS SAFETY FIRST CARS

Something For the Public
as Well as Railway
Employees.

The "Safety First" exhibit under the supervision of the United States government will arrive in Lima on Thursday, June 8, over the C. H. & D. railroad. The train is made of 10 cars and will be parked between North and Market streets. Owing to the fact that it is impossible to cut the train in sections, the consent of Mayor B. H. Simpson has been gained to block High street during the stay of the exhibit in Lima.

Everything in the way of safety appliances toward the prevention of accidents to passengers and employees of the railroads throughout the country will be shown to the public. Not only will exhibits toward the prevention of accidents be shown, but manners in which to prevent disease as well.

The exhibit is open to the public free of charge, between the hours of 1 and 9 p. m. every day during the stay in Lima. From this city the train goes direct to Chicago. The trip of the special is in charge of Van H. Manning, director of the bureau of mines of the United States government.

W. H. RYAN DIES AT LIMA CITY HOSPITAL

Funeral services for William H. Ryan, 65 years of age, who died yesterday afternoon, will be held Wednesday forenoon at 10 o'clock at the Sugar Creek church. The Rev. Mr. Byerly will officiate. Interment will be in Sugar Creek cemetery. Mr. Ryan was removed to the hospital where death occurred, Saturday from his home 7 miles from Lima, on the St. John's road. Death was due to a complication of diseases. He was a farmer by occupation and was born in Coshocton county on September 17, 1848.

Raymond Ryan, of 1709 South Main street, Clifford Ryan, of Lima, Lee, of Mexico, and Edward S. of South Africa, were sons. Mrs. Harry Roush, of Lima, Mrs. William Allen, of Kempton, and Mrs. Allen Frye, of Wakoneta, are daughters, who are left.

NOTICE.
Friends of the Rescue Home are requested to meet in the auditorium of the Chamber of Commerce, in the College building on North Elizabeth street, on Wednesday evening, June 7, at 7 o'clock, for the purpose of furthering the interests of the new building, now in progress.

RULINGS DELIVERED BY JUDGE BAILEY

Judge John P. Bailey of Ottawa, held court in Lima this morning and made the following rulings.

The case of Frank Allstaetter against P. J. Columbus, Frank Colucci and others, was heard on the cross-petition of Colucci, who was given a judgment of \$300 and interest. The mortgage note against Columbus was foreclosed.

Motion for a new trial in the case of George S. Kilne against the Allen County Savings & Loan company was argued and the same taken under advisement.

The court overruled a motion to dismiss the attachment in the case of Walter E. Booth against the O. W. Peirce company. Leave to answer by June 30 was granted.

DOMINICAN REBELS ATTACK U. S. FORCE

STUEBENVILLE, June 5.—James McNeal, 28, shot and killed his wife, Anna, 24, while carelessly her today and then shot himself in the head. He is alive and may recover. Domestic trouble is blamed by the police. The shooting was discovered by the couple's young son. McNeal is in a hospital here.

HOLIDAYS.
If the amusements of men are as varied as their trades, they are seldom so well managed, and often as exacting. To replace one frown by another is all that a holiday does for far too many people nowadays. Something of the bitter competition as well as the busy of business seems to have invaded the sacred hours of idleness.—Exchange.

500 VOLUNTEERS TO IMPROVE 15 MILES OF COUNTRY ROADS

Spencerville and Vicinity
Begin Systematic One
Day Campaign.

Work Divided Into Seven
Sections; Big Fish Fry
in Evening.

Good Roads day, under the Steele plan, will be observed on Thursday, June 8, at Spencerville. Volunteers who will work have entered the contest with a will and nothing save rainy weather will interfere with the improvement of about 15 miles of the poorest roads in the community of Spencerville. Work will start promptly at 7:30 o'clock in the morning and the start will be announced by the ringing of bells and the blowing of whistles.

Five hundred workmen, 57 teams and drivers, 8 tractors, 4 scarifiers, 7 rollers and graders, 7 trucks and 21 automobiles will be necessary to complete the work. Fifteen committees were required to secure the volunteer workers and teams. Instructions will be sent out Wednesday to all helpers and telling them where to start Thursday morning and the equipment to bring along.

The 15 miles of road has been divided into 7 sections. The sections, with the engineers in charge, are as follows:

Section 1.
Amanda road from Auglaize river to Montfort road, known as the County Line road, in charge of R. H. Gamble.

Section 2.
Montfort and Koller road from the Amanda road to the Wilkins road, in charge of Charles Craig.

Section 3.
Koller road from the Wilkins road to the St. Marys road, also the St. Marys road from the Spencerville road south to the county line, known as the Deep Cut road, in charge of Neidhart and Tait.

Section 4.
Canal street, from Second street, and the Willshire road west to the county line, known as the Monticello road, in charge of Jacob Beach.

Section 5.
Delphos road west of the canal from Van Wert road to the Section 3 road, and the Section 3 road from the Delphos road to the C. H. & D. R. R., in charge of J. M. Kennedy.

Section 6.
North street, Main to Broadway and the canal road from the C. H. & D. railroad to the Section 3 road, and the Section 3 road from the C. H. & D. railroad east to the Miller road, in charge of J. M. Eakin.

Section 7.
Agerter road and the Section 3 road from the Conant road to the Miller road, in charge of T. C. Jansen.

The monstrous fish fry in the evening on Broadway will be free to all. The workmen will be served first and then all the visitors from that on until 11 o'clock. A band concert followed by fire works, will close the gala day. More than 10,000 people are expected in the evening.

AUTO THIEVES ARE HELD AT MUNCIE

Machine Stolen in Lima
Last Night Reaches
Indiana City.

Edward Elmer and Dolph Curtis were arrested in Muncie, Indiana, this morning, in connection with the theft of an automobile belonging to C. A. Hapner, of West Alexandria. The car was stolen from in front of the Armstrong garage on North Elizabeth street, about 8 o'clock last night. Officials of Muncie were notified to hold the men until the arrival of an officer from Lima.

Floyd Armstrong, one of the proprietors of the garage, had been instructed by the owner of the machine to place the car in the garage. While Armstrong was busy in his office he saw some one enter the car and drive away. He immediately gave chase but was unable to overtake the speeding car on foot.

Officials of the Indiana City did not divulge the manner in which the capture of the men was achieved, but it is likely they raised the suspicion of parties to whom they attempted to sell the car.

Although Police Chief McKinney sent out cards this morning to police departments over the country, it is hardly likely that they obtained a line on the stolen car in this manner.

HOW TO FEEL GOOD TOMORROW
Indigestion quickly develops into headache, biliousness, bloating, heart stomach, gas on stomach, bad breath or some of the other conditions caused by clogged or irregular bowels. If you have any of these symptoms, take a Foley Cathartic Tablet this evening and you will feel better in the morning. H. F. Vorkamp.

DE PALMA, TWICE WINNER OF THE VANDERBILT CUP OUT TO BEAT RESTA AND BARNEY OLDFIELD AT CHICAGO

Can Ralph De Palma, twice winner of the Vanderbilt cup, twice winner of the High road race trophy, winner last year of Indianapolis and twice the winner of the American road race championship come back? Since a hard-luck season last year after winning at Indianapolis he has been more or less in retirement, but he comes back for the first time at the great International Auto Derby at Chicago Speedway June 18. It will be his first appearance this year, and he declares it will be his only appearance during the year on a speedway. In the list of

entries, however, he will face the greatest drivers of the day, including his arch-enemy Dario Resta, the winner of last year's International Derby; Barney Oldfield, who refused to sign a waiver and allow De Palma to make a post entry at Indianapolis; Eddie O'Donnell, the winner of the Corona and Fresno 500-mile road races on the Pacific coast last month; Josef Christensen, the great Belgian pilot, who has left the trenches to guide the Sunbeam that Porporato drove into second place at Chicago last year. At that there are many who say that De Palma, the only American driver ever invited twice to drive in the French Grand Prix, can come back. But can he stand the 105-mile-an-hour pace that experts say will have to be bettered to win? He will have to show the greatest crowd that ever watched a sporting event, as more than 100,000 people are expected for the race, which comes during the time of the Republican national convention in Chicago.

PAY FOR RECOVERY OF BODY OF BOY DROWNED, ILLEGAL

State Examiners Rule Put-
nam Commissioners Had
No Authority.

Question Now up to County
Prosecutor and Attor-
ney General.

COLUMBUS GROVE, O., June 6.—State inspectors who have examined the books and records of Putnam county commissioners have reported that the reward of \$100, offered by the commissioners in March of 1914 for the recovery of the body of Harold Fruchey, 9-year-old son of Mr. and Mrs. Homer Fruchey, who was drowned in the raging waters of Plum creek, was illegal and that the commissioners exceeded their authority when they offered the reward.

The child was drowned on March 28, falling into the creek at the back-yard of the Fruchey lot, which slopes to the creek and is immediately opposite the Ohio Electric station on West Sycamore street.

It was more than a week before the body was found, buried in a sand-hill about three miles down the creek, where his small shoe had caught as the body was floating down the stream. Grief of the mother over the loss of her only boy and failure to find the body caused the commissioners to offer the reward.

When money was offered, hundreds turned out in the search, wading the stream, using dynamite and making every effort to locate the body. Clarence Bogart of Columbus Grove, found the child's body and secured the money.

It is said Prosecuting Attorney A. A. Slaybaugh will not sue to recover the money from the commissioners or from Bogart. It is not believed Attorney General Turner will take action to have the funds paid back to the county.

SHAWNEE PIONEER C. H. NYE, IS DEAD

The Rev. W. W. Constable, pastor of Shawnee Methodist church, will conduct funeral services, to be held Wednesday afternoon at 2 o'clock over the body of Cyrus H. Nye, 67 years old, farmer, who died last night at 9:50 o'clock from complications resulting from uremic poisoning.

He was born on March 2, 1849, and resided for years in Shawnee township, where death occurred. The widow and three sons survive. The sons are Orville Nye of Robinson, Ill.; Dale Nye of Cleveland, and Howard at home. Two sister and two brothers are also left.

DEFENDER'S FUNERAL.
The body of Miss Donna Diefenderfer, daughter of Mrs. Isaac Diefenderfer, of 300 West Kibby street, who died Sunday, was accompanied this afternoon to Dunkirk, the home of her birth, for funeral services and burial. The Rev. Warren J. Duham, pastor of Grace Methodist church, conducted prayer services at the home at 10 o'clock this forenoon.

TRYING TO GET MOOSE FOR HUGHES

(Continued from page one)

ers of both factions have at one time or another participated in these exchanges of views. The announced purpose of the meetings has been to seek some agreement respecting a possible nominee or issues on which they could unite.

At the outset the regular republicans were inclined to offer the entire list of candidates now in the field as proof that they are not trying to force any particular man upon the progressives and to point out that the progressives on the other hand have but one candidate—Colonel Roosevelt—and that harmony is far off until the progressives show a willingness to consider other names.

The suggestion of Senator Lodge, which came last night, was believed to have been the result of this broad criticism of the progressive course.

Republican leaders were disposed not to take the Lodge suggestion seriously. Some of them said openly that the senator's name was offered because the progressives believed it would be impossible for the republicans to unite in his support.

Lodge won't do. The mention of Mr. Lodge as a compromise candidate only added to the skepticism of the regular republicans concerning the sincerity of purpose of the progressives in proposing names other than Colonel Roosevelt's. It led to a disclosure that at a conference Sunday night between a number of prominent progressives and republicans, the former offered the name of Senator La Follette and asked the republicans if they would accept him. The republicans immediately charged the progressives with insincerity.

The progressives had more to say today about Justice Hughes' speech than did the Hughes men themselves. Progressive leaders, after carefully studying the speech, professed to attach little significance to it as affecting the political fortunes of Colonel Roosevelt.

The meeting late today of the progressive national committee with the state chairmen and chairmen of state delegations was expected to touch further the plan of temporarily holding up nominations in the progressive convention. It was expected at a meeting to "let the outsiders know what the insiders know and propose." Caucuses of progressive state delegations will be held this evening, so that every delegate may be advised just what the leaders are considering.

Chairman Murdock expressed belief today that action upon nominations by the progressives might be withheld until Friday but no longer.

TWO HELD AFTER DOUBLE SLAYING

TOLEDO, Ohio, June 6.—Formal charges of murder were today placed against Bart Cluckey and Joseph Bolan, arrested after James Smith, Cleveland railroad detective, and Clarence Ditz, a bartender, received fatal wounds a few days ago in a gun battle in the railroad yards. The officer was seeking thieves who had thrown a quantity of automobile tires from a freight car. Cluckey and Bolan, police say, have admitted they were on an automobile truck which was seen at the time of the shooting, approaching the spot where the tires had been thrown from the car.

SHARPSHOOTERS GET ONLY 2 DOGS

Mayor of Waynesfield, Bit-
ten in Lima, Under
Treatment

Unfavorable weather today made it impossible for the sharpshooters of the police department to make any records in the war declared on unmuzzled dogs. Blai and Sullivan were the only two men sent out on such an expedition and they returned at noon with the scalps of two canines hanging to their belts. Several of the local stores that deal in muzzles reported that they were entirely sold out as a result of the proclamation of Mayor B. H. Simpson. So anxious are dog owners to save their favorite pets either wire or leather muzzles are in demand. Since the exhaust of the supply of wire muzzles, harness makers and cobblers have come to the rescue with some of their own manufacture.

Chief McKinney stated today that several men would be sent out each day until the city is rid of those that are not taken care of in the proper manner. All sections of the city will be carefully searched for the unfortunate unmuzzled dogs.

Mayor George B. Bennett, of Waynesfield, reported today that he had been attacked by a dog Thursday, May 25. He says that the incident occurred as he was passing the court house in Lima. He is being treated by one of the local physicians, who has a supply of the serum sent here from Columbus. He states that shortly after the dog attacked him it bit a girl.

HILL ESTATE \$10,000,000.
ST. PAUL, Minn., June 6.—James J. Hill, the railroad builder, left no will. His widow today filed a petition in probate court asking that Louis W. Hill, a son, be appointed administrator of the estate, the value of which is placed in the petition at \$10,000,000.

REASON FOR IT.
"Here's a writer says that it's the rich and the aristocratic who are the worst gossip."

"On the principle, perhaps, that 'money talks' and 'blood will tell.'"

SPIDER TIGERS
The lycase are tigers among spiders, and when the eggs are inclosed in their sac they attach the precious parcel to the abdomen and carry it about with them. During the season of maternity they are exceedingly fierce and consider any evidence of a direct challenge to attack. When the young are hatched they swarm out over the mother, and she carries them about with her for several days. So voracious is their appetite that she frequently falls a victim to it for, it is said, they have no compunction whatever in devouring her.—Exchange.

There isn't a merchant in this city that will not do the right thing by the public. The people should help by keeping their money in Lima. If

8,926 CHILDREN OF SCHOOL AGE IN CITY

Youthful Census Taken.
Find Lima Has More
Girls Than Boys.

There is a total of 8,926 school children in the city of Lima, according to the returns from the recent enumeration made by school children two weeks ago, which has been filed with J. I. Motter, clerk of the board of education. Of this number, 4,507 are boys and 4,419 are girls.

There are 1,856 pupils between 6 and 8 years of age; 3,214 between 8 and 14 years; 1,220 between 14 and 16 years of age, and 2,536 between 16 and 21. There is a total of 43 boys and 43 girls in various state institutions of learning.

The report shows that 7 boys and 5 girls in the city are feeble-minded and unable to attend school; 11 boys and 20 girls are physically disabled; 3 boys and 2 girls are blind, and 4 girls are deaf.

The state secures \$2 per capita for each child included in the census of school age. According to Prof. J. E. Collins, there is a gain of 158 pupils over last year.

The census was taken by the boys and girls of grammar grade age and every house in the city was visited. It was the first time such a thing had been accomplished in this part of the country. The plan originated with Prof. J. E. Collins, superintendent of schools, and the children worked with a will to secure its accomplishment.

EMPTY HANDED.

The afternoon at the new neighbor's had passed very pleasantly. James junior cried when told that it was time to go home.

"Never mind," said the lady consolingly. "You can come again."

"It ain't that," said James, Jr. "It's the whopping I am going to get from Henry. When I get home I'll say 'Halves, and if I have to tell him that you didn't give me anything he will think I'm telling a story and punch my head for it.'"

CARTER CASE TOMORROW.

The injunction case wherein James and Kate Carter of the Allentown road, sought to prevent the commissioners, the city of Lima, Contractor H. B. Back and Service Director A. L. Methany from entering their lands, with a view to paving, will be argued tomorrow in court before Judge Klinger. If the injunction is dissolved, the improvement of the Allentown road may go on. Otherwise, it will be generally interfered with, because the Carters own land which is in controversy now as to coming under the improvement.

REAL CHARACTER

ONCE knew a girl who had often said "I would prefer being called anything but sweet, anything but gentle. To me such a person is without character, without force, and I much prefer persons with definite characteristics." The girl herself was one of the type she professed to admire, with a strong, definite personality which won her friends and enemies, but which kept her from a great amount of happiness her "gentle" sister gained. I remember I often wondered at times when the real sweetness of her heart would peep out, why it was she then appealed to me more strongly. But I never exactly found out, until the other day I was surprised to meet this young girl who had been separated from her. I was not alone when we met her and my companion and myself walked on from a nice long talk with the young woman in question my companion remarked "What a personality, and such gentleness, and sweetness of manner—and poise." The comment startled me for I myself had noticed some intangible change, some subtle power tempered with a gentleness and repose of manner not quite the characteristic of the girl I had known, but the real charm of this woman. Later I was with the woman, and in the course of our conversation I asked her perchance had changed her opinion about the "gentle and sweet" persons. And to my delight she said she had.

"Do you know," she said, "I, who used to have such decided opinions about the persons who did not inspire me to immediate like or dislike, am trying to grow a personality that is gentle. Once I thought the middle person was the weakest because he was calm, gentle in his judgment and not so free with his ideas. I liked persons with definite ideas, much force of personality, whether it be one way or the other, but with force. Not so many years ago I went out in the business world and met a great many people I had never before been thrown with, and it all started my mind to working in another direction. And one day I woke up to the fact that I didn't enjoy my friends with their rabid opinions and their decided temperaments as much I used to. I also found I was noticing that the big men and women were gentle, with a sweetness and a gentleness their little brother didn't have. Was it possible I had been on the wrong scent? Finally I decided I had and I thought I would cultivate gentleness. So first I began with a smile on my lips, and a check on my mind, and a more deliberate way of talking. For a week perhaps it worked, but it soon began to wear, and doubt came, that perhaps after all I was right in my old belief. Then one day a poor little girl came in our office and asked to see Miss X, and when told she was out of the city for an extended stay, she said, 'But what will I do, I can't tell any one else. Miss X understands, she is so kind and gentle.' With a start I realized that I had been wrong, and I had been wrong again in thinking I could attain all that I wished by a smile on my lips without one in my heart, a check on my mind without the kinder thoughts, and a deliberate 'air' without cultivation. And so I have changed my mind, and I'm trying to grow into one of those persons who have not the decided personalities which one either likes, or dislikes, very much. I find the person who tries to keep the 'even tenor of his way' has by far the most forceful personality. But he can only be recognized by his kind." Then as I started to leave she added with a smile "I left out the most important part. I am much happier."

Perhaps there is something in the proverb, "the meek shall inherit the earth", at least the meek with the force of a thinking mind.

"FAKE REMEDIES" ADVERTISING

No doubt some of the medicines advertised are fakes, but they never have any lasting success. They stand in striking contrast to the good old standard, dependable remedies, like Lydia E. Pinkham's Vegetable Compound, which has stood the test of time and has more than 40 years of time attesting the suffering of women. Such medicines are a blessing to the community and will continue their good work from one generation to another.

Don Francisco conducted us to the gardens of the Alcazar, where he had previously given orders that the water works should be played. The gardens are preserved in the Moorish style; one part is precisely as at the conquest, clipped hedges of myrtle and devices cut upon them. Another part was laid out by Don Pedro; rows of myrtle warriors, giants and ladies with wooden heads and arms, carrying in their hands swords, clubs, musical instruments, etc. Further on is the garden of Charles V, with a pavilion for refreshments, a delicious spot. The whole garden is full of jets of water, cascades, fountains, and water tricks and devices. I was to the full as much pleased with these hanging gardens as Charles or any child could be. The English taste for simplicity and nature, which places a house in the midst of a grazing field where the sheep die by the day long, has by offending me so much, perhaps driven me into the opposite extreme, and made me prefer to the nature of a grass field and round clump the built gardens of two centuries back.

Members of the Nurses Alumni association met for the last time this year last evening at the assembly room of the Lima city hospital. Dr. and Mrs. J. D. Felling and Dr. W. M. Refreshments were served during the evening by the Misses Helen Steiner, Alice Bresson and Misses Hepling and Mrs. Linnie Shepherd.

Members of the Woman's Missionary society of the First United Brethren church will meet Wednesday afternoon at 3 o'clock at the home of Mrs. C. C. Collins of East North street. The following program will be given: Opening song, "Higher Ground"; Bible study, Mrs. Charles Voris; wonder box, Mrs. Lilly; music by Missionary quartet; lesson, Mrs. O. E. MARRYING A BUTTERFLY

By MRS. EVA LEONARD

Chasing Dish Suppers Have Lost Much of Their Charm of Ralph.

"NOW, I'll go in the house and you ring and pretend that you have come to spend the evening with me." Ethel ran off as delighted as a child with the pretense.

Ralph, doubtfully rang the bell, wondering why he could not summon the thrill with which he used to wait for her answer to his summons. She came dimpling and smiling as of yore and he reproached himself for his coldness. "I knew you would be hungry," began the little hostess, "and I have a cozy charming dish supper all ready in the dining room." The electric toaster and copper chafing dish were in active service, and he seen was slipping the fragrant top and buttering slices of toast, while she mixed the cheese and milk for the omelet.

"I hope I shall have as nice a chafing dish for a wedding present," Ethel was heard to carry out her pretty pretense.

"After we are married," began Ralph, gaily joking in, "we will have regular meals cooked by my little wife. Chafing dish suppers are all right for unmarried people, but married folks have to work and get hungry and need regular meals."

"Yes, I hope we will have a good cook," said Ethel, getting pink to her ears.

"It's never safe to depend on cooks," cautioned Ralph placidly. "The good ones get married and the bad ones leave without notice. Besides a servant soon knows whether her mistress is a good housekeeper or not and acts accordingly."

"When I marry, I do not expect to do the housework," said Ethel aloofly.

"Not if you can get help, but you must be ready to step into the breach and keep the machinery running between meals. I heard of a family that had two servants. One going and the other coming." Ethel did not laugh at the joke. Instead she took out her handkerchief and wiped her eyes.

"It is a great mistake for any woman to feel about keeping a good home," Ralph pretended not to notice the handkerchief.

"If you are looking for someone to do your housework, you had better look elsewhere," said the teary little creature, letting her rarebit burn in her distress of mind.

"That's baring, Ethel," Ralph reached over and turned out the great, vacant eyes there were no blaze. "I do not want my last chance of refreshment to go up in smoke. I had a beautiful dinner at that hotel, and—"

"You had as good a dinner as I did, and I am not making a fuss about it either," fared Ethel.

"It is different if you can spend your time swinging in the hammock," retorted Ralph. "I had to work today, and work hard, too, and a man can't keep that up on smiles and kisses."

"It is a pity you had not talked that way when you were really coming to see me. Then you said you wanted 'just me,' with my sunny smile to make your home a heaven."

She gulped down a sob.

"No more I would," Ralph looked at the flushed face and tear-filled eyes. "But wouldn't it be possible to have you and have a little efficiency thrown in? Anybody that could get up so dainty a little spread could learn to cook if she set her mind to it."

"I am not planning on being a household drudge," Ethel rose and left the room.

"That is just the trouble," grumbled Ralph, helping himself to the rarebit. "She doesn't want to learn. She doesn't care how mighty uncomfortable she makes me, just so she is free to do nothing."

(To be continued.)

OUT OF THE DARKNESS—PART 2

Copyright 1916, by the McClure Newspaper Syndicate.

YESTERDAY I told you of my visit to the blind and today these are the true stories of the children told me by the loving sister in charge of them.

Little Catherine was a merry-faced little girl, and within her great, vacant eyes there were no depths of anguished unhappiness. She seemed quite satisfied with the little patch of sunlight they called the garden, but when I asked her: "What would you like to have above everything else?" instead of replying "peppermint candy," "bologna sausage" or "a phonograph," it was, "I'd like to have a mother."

"A mother! Poor little girl," the sister whispered in my ear. "This was the baby that was found on the street, deserted by her mother. She was a sweet, plump little baby of six months old, but, unhappily, born blind. A mother was seen carrying the baby and looking for a place to leave it. Two hours later she had gone—no one knows where—and when the baby was found they brought her here and she has been with us ever since."

Two little children, not over three years old, came stumbling in, reaching out their hands for Lucinda, the blind colored girl of seventeen, whose duties were to guard the little children.

It seems that Lucinda, too, had been found, a little, tiny, deserted blind baby. So light was she in color at that time that they had thought she was white, but as she grew older, she turned darker and darker, until they had nicknamed her "Little Chocolate Drop." Lucinda loves to hear this story and laughs over it as heartily as any of the other children.

"They call me 'Chocolate Drop,'" she informed me, "and I like to hear it. It makes lot of fun for the children. It does."

So many played the piano beautifully and several had voices sweet and clear as Christmas bells. Several of the girls were becoming expert stenographers and all enjoyed reading the periodicals, newspapers and books which are printed in raised letters for the blind.

There was only one unhappy face among them—a little, sullen girl, who had been blind for only a few years and had been sent to the home by her family because she had been in the way.

Memories of the world's colors, blue skies and the faces of those whom seem so terrible to her that she shrank away from human touch, cowering in a corner in fear.

"We are trying to win her little, embittered heart," one of the sisters told me, "before she grows up into unhappy womanhood. She will not play with the other children. 'I don't want to play with children that I cannot see,' she tells them."

In her Journal Lady Holland recorded some of her impressions of Seville, which she visited during her first journey in Spain in 1802-05. On arriving at Seville, she tells us, they received a call from Don Francisco Bruna. "We went to see the Alcazar, the old palace of the Moors, of which our friend Don Francisco is the Alcaide."

As Don Francisco, who has a taste for the arts, has established an Academy of which he is the president, he did fair grace of the most insignificant object, and the illegible inscriptions were the attractions of his fondness. Two fine pictures by Murillo were copied, that the originals might be removed to Madrid; the court have everywhere stripped the provincial cities of their capital pictures.

The Young People's Missionary society of the First Lutheran church will meet at the home of Mrs. Arthur Kasson, 539 South Metcalf street, on Tuesday evening.

MARION PROMISES BEST OF CARE FOR HOST OF G. A. R.

Ten Thousand Visitors Expected to Attend Golden Jubilee Encampment.

Big Preparedness Demonstration Planned For Second Day.

MARION, June 5.—George B. Christian, chairman of the executive committee in charge of the golden jubilee encampment of the Grand Army of the Republic to be held here June 12, 13, 14 and 15, guarantees that 10,000 can be taken care of and given ample accommodations and comfort during the four days of the encampment.

Every home in Marion has been personally visited by a member of the committee and asked to care for as many visitors as they conveniently could. Chairman Christian is gratified with the willingness of the citizens of Marion to take care of the city's guests.

Card Index System

In order that there may not be a single hitch in the placing of the veterans in the homes, cards have been placed on file at the encampment headquarters. These cards state exactly how many each home can take and what accommodations can be secured in the home. The hosts of Marion have all arranged to press every available room into service.

When the veterans come to the headquarters on the first day of the encampment, boys scouts will direct them to the homes where they are to stay. Arrangements have been made for 200 automobiles which will be pressed into service to place the visitors as soon as possible after their arrival in Marion.

Food Problem Solved

The question of feeding a crowd of 10,000 is a large one but has already been solved by the encampment committee. Restaurant and hotel managers have all been urged to have a mammoth supply of food on hand. The residents are also being urged to have food on hand. Churches will be pressed into service to feed the multitudes. Meals will be served in each of the fourteen houses of worship during the four days of the encampment.

Members of the Grand Army of the Republic and its auxiliary organizations are not only once who can take an active part in the parade, demonstrations and ceremonies of the encampment.

Preparedness Parade

The civic preparedness demonstration to be held Tuesday evening, promises to be the biggest parade of the encampment. All members of the G. A. R. and affiliated organizations will appear in this plea for preparedness. Every fraternal organization in Marion and some of those from neighboring towns are planning to march in full force in the parade.

All the school children of Marion and their teachers and principles will turn out to urge the nation to prepare. Each child will carry a big American flag, and will carry on a flag drill while marching. Employers are urging their employees to turn out for the parade. The national guardsmen of nearby towns have been asked to march in the demonstration. The national guard organizations of Gallon, Buxyrus, Delaware and Benton have already informed the committee that will be there with their full equipment.

Flores, one symbolizing the army and the other the navy, will feature this big preparedness spectacle. At least 20 bands will play the national hymn in unison during the ceremony. A contract has been let for the furnishing of \$300 worth of red fire to be used in the demonstration.

UNITED STATES SAFETY FIRST SPECIAL ON B. & O. RAILWAY

The United States Government, through the co-operation of the Baltimore & Ohio Railroad company, will endeavor, for the first time, to acquaint the people of the United States with the various methods adopted by the Federal government to further personal safety.

Those who have visited the nation's capital and various exhibitions, have had opportunity to know

what the Federal government is doing along the lines of life saving and property saving; but the great majority of persons have little knowledge of the vast organization effected to protect the people in peace as well as in war.

The United States government, therefore, intends to show this to the people who have not had the opportunity of seeing it.

To this end, the Honorable Frank

K. Lane, secretary of the Interior, asked the co-operation of Daniel Willard, president of the Baltimore & Ohio Railroad company, for the free use of a complete all-steel train of the necessary number of cars to transport to exhibits, and thus assist the government in this unusual enterprise.

It is the hope of the government that all people will view the exhibit of the Safety First Special and ac-

quaint themselves with the full meaning of "safety first," a maxim of paramount significance in the conduct of the affairs of a great nation.

Itinerary.

Wednesday, June 7, at Piqua. Thursday, June 8, at Lima. Train will be located on C. H. & D. track between North and Market streets. Open to public from 1 p. m. to 9 p. m.

The paper of the day was read by the Rev. F. W. Rohling, of Van Wert, who selected for his subject, "The Mediatorial Office of Christ."

CHRONIC DISCOURAGES

It is really very curious to observe how, even in modern times the acts of discouragement prevail. There are men whose sole pretense to wisdom consists in administering discouragement. They are never at loss. They are equally ready to prophesy, with wonderful ingenuity, all possible varieties of misfortune to any enterprise that is proposed, and when the thing is produced, and has met with some success to find a flaw in it—Helps.

Sessue Hayakawa, the Japanese actor who made such a favorable impression in the Lasky production of "The Cheat," has come into his own in "Alien Souls," a stirring drama of Japanese-American life, now at the Faurot, and has substantiated in every way the very favorable impression that he created among the critics at that time. Once again he has proved the enormous effect that can be gained by repression. He seems to have applied the Japanese system of Jiu Jitsu to his acting, for nearly all of his effects are gained by yielding rather than by strenuous forcefulness. The expression of his face changes very little, yet that slight

Toney Wins Own Game Assisted By Chase's Hits

NEW YORK, June 6.—New York lost a ten inning game to Cincinnati here yesterday, 3 to 2, the visitors taking the bulk of the series, two games out of three. Pitcher Toney won his own game when he opened the tenth inning with a three base hit and scored on Chase's single. Chase also drove home a run in the first inning. It was the sixth extra inning game lost by the Giants on their home grounds this season.

A PEASANT BOY PHILOSOPHER.
Very remarkable was the boyhood of the celebrated James Ferguson, who was born at Keith, in Banffshire, Scotland, in 1710. His father who was a day laborer, taught him to read and write and sent him to school for three months at Keith. At the age of 8 he constructed a clock of wood that kept remarkably good time and afterward made a wooden watch with a whale-bone spring. He began to earn his first money by cleaning and mending clocks in the neighborhood. His astronomical pursuits commenced soon afterward his father having sent him to a neighboring farmer, who employed him in watching his sheep. While thus occupied he amused himself at night by watching the stars and during the day in making models. In 1747 he published his first book, and this was followed by other astronomical works. His books received the approval of the Royal Society, before which he frequently appeared.—Exchange.

Lima Will Play Columbus Outfit On Next Sunday

The fast Lima independent team will be given their supreme test of ability next Sunday when they stack up against the fast semi-pro team from Columbus, Ohio. The team which is known as the Shannons is considered to be one of the fastest aggregations of ball tossers in the state, having been organized a number of years. It is said that the team work of the club is of the super-natural order.

The Lima Independents with four straight wins to their credit fear nothing that is attired in the customary baseball uniform and can see nothing but victory in the coming contest with the Capital city team at Murphy street park.

The Columbus boys have been sweeping everything before them so far this season and according to their manager will come to this city with the intention of annexing another scalp to their belts.

The lineup of the visitors is composed of ex-leaguers and former college stars. All of them have received flattering offers from minor league clubs, but owing to their business connections in Columbus, they have turned down such propositions.

Last Sunday the Shannons defeated the fast Zanesville club by a score of 4 to 3. The team lineup is as follows: B. Smith, ss; Offinger, lf; D. Dowell, c; Holland, 1b; Barnes, cf; Miles, rf; Brunton, 3b; E. Smith, 2b; W. Dowell, p.

The local team will lineup the same as in the game last Sunday. With the appearance of McClellan on the first cushion, nothing much better in the way of an infield could be asked for. In the four contests that have been played all members of the team show an inclination to hit in a pinch. Carroll will do the twirling for the locals.

methods of warfare the permanent fort is no longer a practical defense.

USES NEW SIGNAL LAMP.
A powerful electric signal light, designed to supplant the acetylene lamps used in primary triangulation by the coast and geodetic survey, has been constructed by an employee in that branch of the government. Acetylene signal lamps have been observed with the telescope over lines 120 miles in length.

This new lamp has been tested and was shown to be 150 times more powerful than the acetylene. The electric light will be used this summer in mountainous regions in Idaho and Oregon, where the distance between stations frequently is as much as 100 miles.

The new lamp has an especially designed filament and the power is the ordinary dry cell. It is expected that ordinary haze or smoke will seldom prevent observations with this signal.—Popular Mechanics.

THEY LET HIM SLEEP

"Since taking Foley Kidney Pills I believe I am entirely cured and I sleep soundly all night."
H. T. Sneygys

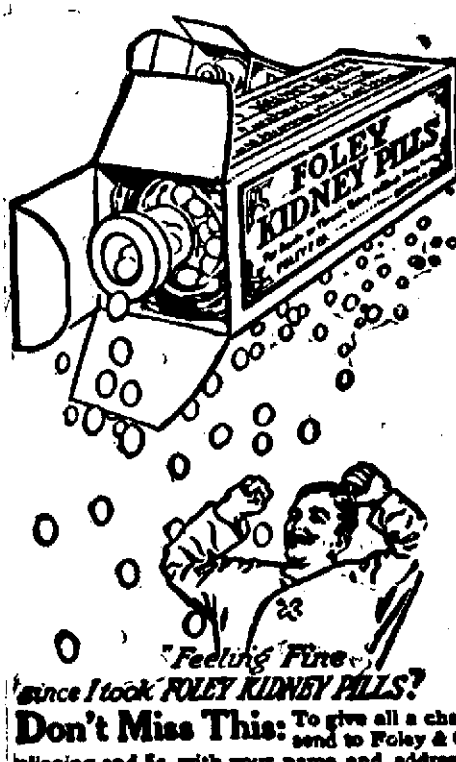

Take two of Foley Kidney Pills with a glass of pure water after each meal and at bedtime. A quick and easy way to put a stop to your getting up time after time during the night.

Foley Kidney Pills also stop pain in back and sides, headache, stomach troubles, disturbed heart action, stiff and aching joints and rheumatic pains due to kidney and bladder ailments.

CARNESVILLE, GA., R. R. No. 3. Mr. H. T. Sneygys writes: "For ten years I've been unable to sleep all night without getting up. Sometimes only a few minutes after going to bed I'd have to get up, and I tried everything I heard of for the trouble. Last week I tried Foley Kidney Pills and after taking one bottle I believe I am entirely cured and I sleep soundly all night."

Don't Miss This: To give all a chance to try Foley & Co.'s family remedy, send to Foley & Co., 2835 Sheffield Ave., Chicago, Ill., this clipping and 5c, with your name and address written clearly, and they will mail you a trial package containing samples of Foley's Honey and Tar Compound, Foley Kidney Pills and Foley Cathartic Tablets.

Very remarkable was the boyhood of the celebrated James Ferguson, who was born at Keith, in Banffshire, Scotland, in 1710. His father who was a day laborer, taught him to read and write and sent him to school for three months at Keith. At the age of 8 he constructed a clock of wood that kept remarkably good time and afterward made a wooden watch with a whale-bone spring. He began to earn his first money by cleaning and mending clocks in the neighborhood. His astronomical pursuits commenced soon afterward his father having sent him to a neighboring farmer, who employed him in watching his sheep. While thus occupied he amused himself at night by watching the stars and during the day in making models. In 1747 he published his first book, and this was followed by other astronomical works. His books received the approval of the Royal Society, before which he frequently appeared.—Exchange.

OPENED EYES

By LESLIE FORD.

"Just look at Ben Todd, the station agent, going back to the depot the other way," Mrs. Perkins called to her daughter. "I'll bet he and Mabel have quarreled about that whipper-snapper Charlie Wilkes, for she was out automobiling with that fellow yesterday, and they passed the depot three times, as if they were just determined they should see them."

Mrs. Perkins jumped to conclusions with the skill of a practiced gossip, but in this case she had reached the right conclusion, for Ben and Mabel had quarreled the night before when he went to make his usual Sunday evening call.

Ben had tried to avoid mentioning Charlie Wilkes, the dapper young man, who, while on a vacation visit to Marshville, had been paying Mabel so much attention that all the town was wondering how much longer Ben would stand it without "letting his foot down." As Ben and Mabel sat on the front porch there was a stifling sense of impending storm. Conversation moved haltingly. Eight o'clock came and passed, and from over the hill came the faint sounds of the church organ.

"Are we going to the union song service tonight?" asked Ben.

"What for?" retorted Mabel. "To listen to Mable Cobb try to outstep Elsie Martin?"

"Seemed like you enjoyed the church social Thursday night; that is, it looked that way to an outsider like me." Thus Ben touched off the spark that exploded his intention to avoid the one subject of which they were both thinking.

"Yes, I did, and that because I was with a live wire," snapped Mabel. "If a few people like that lived in Marshville there'd be something to enjoy all the time."

Ben took his hat from the end of the porch seat.

"Since you've made it plain that there's no enjoyment for me in my company, I can't possibly soon relieve you of it," Ben descended two steps, and added: "Good night, Mabel. You'll not be bothered with my company again unless you say the word."

"Of course, being a man, you'll blame the woman when things go wrong. I hope you're satisfied, and I'm sure I am. Good night," Mabel disappeared through the doorway and Ben walked all around town to reach his boarding house, only three blocks away.

During the week that followed, Mabel and Charlie Wilkes were often seen together by the observant townspeople. On Saturday, a celebration was held in honor of the completion of the new town hall, and the festivities ended with an evening concert in the public square. Mabel and young Wilkes had been dashing around town in an automobile and they stopped near the square to listen to the band.

"Gee, this is no life for me, Mabel," said Charlie, with easy familiarity. "You ought to be in the city. Why, any number of girls with less education than you got from fifteen to twenty dollars a week for the lightest kind of office work, and evenings they're nothing to do but dress up and go to a show or a dance."

"But Amy Cobb was home last week," weakly protested Mabel, "and she makes a good salary; but she says it is hard to make friends in the city among the kind of people you'd care to call friends."

"Oh, well, if a girl acts like a stiff people will pass her up, but you'd never have to go hogging for a friend or a heart—certainly not when I'm anywhere around." Charlie slipped his arm around Mabel's waist and started to draw her to him, but at that instant there came a crashing sound from the band platform and a hundred shrieking voices from the crowd. Mabel started to spring forward, but Charlie tightened his arm about her. She turned herself away from him and turned her eyes blazing upon him as she let herself out of the car.

"How dare you? And when people around us are being killed? Why don't you do something to help?" she almost shrieked at him.

"Why should I do anything?" came Charlie's indignant reply. "It's no concern of mine if these Rubes want to get their necks broken. Even your friend, the station agent and baggage hustler, is in that gang. See?"

All Mabel could see was a young woman hugging a three-year-old boy to her breast, and a number of excited men trying to make room on the ground to let Ben Todd's limo pass. She pushed her way to his side. She couldn't speak, but she looked her agonized questions so plainly that a man explained:

"Ben said that Brooks kid dart under the platform playing hide and seek. Then the crash came, and while the rest of us were looking out for our skins Ben dashed under and grabbed the kid and managed to drag him out before that last crash came."

Doctor Smithson was busy examining Ben, and after what seemed a long time he announced that some bad bruises and a fractured arm were the most serious apparent injuries. Ben inquired whether the child had escaped injury. It was Mabel who answered, but she bent down so near to him that nobody heard all she said. (Copyright, 1916, by the McClure Newspaper Syndicate.)

ONE ADVANTAGE OF WAR. In Berlin the street cars have been placed in charge of women conductors, on account of the shortage of men. The comic paper, Ull, of that city, publishes the following joke in that connection:

"Look here, my friend, what on earth are you waiting for? You're been standing here for an hour in the pouring rain."

"I'm waiting for a car."

"But at least five have gone by."

"Yes, but not the one with the pretty conductor!"—Exchange.

\$66,000,000 TO BE SPENT IN CHICAGO FOR R. R. TERMINALS

Freight Buildings and New Tracks to be Finished in Six Months.

Great Passenger Structures Will be Completed in Three Years.

CHICAGO—The sum of \$66,000,000 will have been expended by several of the great railroads operating in the Chicago district when the new freight and passenger terminals now under construction are completed. The freight terminal will be finished in about six months but it will take nearly three years to complete the passenger terminal.

The freight terminal will embrace laying of track on a stretch covering 12 city blocks, from the Chicago river south to Twelfth street. The plans for the terminal were so arranged as to give a maximum speed and convenience of handling freight with a minimum of ground space necessary for the buildings involved. The work is being done by the Pennsylvania lines, west, and will cost, for land acquired, building material and labor, approximately \$16,000,000 and the finished work will be one of the greatest accomplishments of its kind in the history of modern railroads.

The main aim of the builders was a terminal that would be so arranged as to eliminate street congestion in handling traffic and would make speedy and easy the handling of the enormous and steadily growing freight business of Chicago. This result will be accomplished by close grouping of the several parts of the terminal structure and by placing the railroad tracks below street level, with the freight house just above the tracks, at street level, and with a storage warehouse above the freight house. The idea of placing the component parts of the terminal above one another was to save ground space and to make the handling of incoming and outgoing freight easy by a system of powerful, modern-type electric elevators.

Adjoining the freight house, and all under cover, will be 18 tracks, which will accommodate 400 freight cars. Inclosed driveways will protect freight and freight handlers in all sort of weather.

One thousand men have been working for about 10 months, some laying the heavy piling and concrete foundations, and some putting up the structural steel frame work of the buildings. About 25 per cent of the structural steel work remains to be finished. This will be in about six months and the total cost of labor, by that time, will, it is estimated, amount to about \$1,500,000.

The steel, brick, concrete, piling and terra cotta that will go into the building will cost about \$2,500,000.

The structures will occupy a ground space of 450 by 750 feet between Polk street on the north, and Taylor street on the south, and between the Chicago river and what was once Stewart avenue. Acquisition of the ground thus used cost the railroad company \$12,000,000. The union passenger terminal, on which preparatory work has begun and which will be completed in about three years, will cost about \$50,000,000 and will be the finest railway passenger station in the world, its projectors say. It will be built and occupied by the Chicago, Milwaukee & St. Paul, the Pennsylvania, and the Chicago, Burlington and Quincy roads, the Pennsylvania being represented by two branches, the "Panhandle" and the Fort Wayne.

The station will be composed of two buildings, with common facilities of egress and ingress. A main building will be west of Canal street and a concourse, between two sets of tracks, will be east of Canal street. Each of the two buildings will be surrounded by four streets, thus giving eight points of exit and entrance to passengers and making access to trains quick and convenient. Train sheds will extend from Madison street, south to Harrison street.

The architectural feature of the main building will be a waiting room 100 by 300 feet and 120 feet high. The building will occupy a ground space of 325 by 350 feet. The train sheds will be of the latest covered-in type and will eliminate columns in the center of the platforms.

BAD JOY.

A minister who had resigned from his church was making his farewell calls. He called at the home of one of his parishioners, who sent her little girl down to the parlor to entertain the minister for a few minutes, the mother not being dressed to receive him. After a few of the customary remarks about the weather the little girl said to the minister:

"I hear that we are to have the sad pleasure of leaving you."—Chicago News.

PORTUGAL THE POLITE.

Portugal has been acclaimed as the politest country in the world.

When I asked, wrote the Earl of Carnarvon after visiting that country in 1827, what society had reached the most polished form, I should say that of Portugal. Portuguese politeness is delightful because it is by no means purely artificial, but flows in a great measure from a natural kindness of feeling and extends to all classes and affects all relationships.

"Do? You could have told them I was alone and you had to come home."

"I did, my dear. I even told them what a nag you were, and how you'd make life miserable for me."

"You told them that? The very idea! If that isn't just like you to blame me when you know that you wanted to get to bed yourself. I want you to understand that if you can't think of any better excuse than that for coming home, you can stay as long as you like do."—Detroit Free Press.

FOREIGN BUYING LIFTS WHEAT RATE

Unfavorable Weather Has Bullish Effect on Corn For a Time.

CHICAGO, June 6.—Active foreign buying here together with a scarcity of offerings lifted the wheat market today after prices had shown a tendency to waver at the outset. Opening quotations which ranged from 3/4 decline to 3/4 cent advance with July at \$1.83 1/4 to 1.04 and September at \$1.05 to 1.06 1/4 were followed by a decided general upturn.

Unfavorable weather had a bullish influence on corn. Buying however was not of an aggressive character. After opening 1/4 to 1 1/4 c higher the market continued to harden.

Oats rose with other cereals. Nevertheless, as in corn, trade lacked volume.

Lower prices on hogs carried down provisions. About the only demand was from shorts.

The wheat close was strong, 2 1/4 @ net advance with July at \$1.05 1/4 and September at \$1.07 1/4.

The corn close was steady at 7/8 to 1c net advance.

The close was: Wheat, July \$1.05 1/4; September \$1.07 1/4. Corn, July 70 1/2; September 69 1/2. Oats, July 40; September 38 1/2. Pork, July \$20.62; September \$20.05.

Lard, July \$12.38; September \$12.27. Ribs, July \$12.32; September \$12.23.

PITTSBURGH LIVE STOCK. PITTSBURGH, Pa., June 6.—Hogs, receipts 2,000; steady. Heavy \$9.55 to 9.65; heavy yorkers \$9.50 @9.60; light yorkers \$8.85@9.00; pigs \$8.50@8.75.

Sheep and lambs, receipts 500; steady; top sheep \$7.75; top lambs \$10.00; 25 cents higher.

WOMAN'S PARTY SENDS CALL TO 100,000 PERSONS

Will Besiege Conventions of Republicans and Progressives in Chicago.

ONE PLANK PLATFORM

Will Use Votes in States Where Equal Suffrage Rules.

By Frederic J. Haskin.

WASHINGTON, D. C., June 6.—The call to a woman's party convention, to be held in Chicago at the same time that the republican and progressive parties are holding their conventions in that city, has gone out to over 100,000 women of every state in the union. That the new party is to be a regularly organized one along recognized political lines, seems an accepted fact. Over 40,000 women are expected to answer the call. Chicago will be filled during that week, not only with men attending the republican and progressive party conventions, but with women, organized for the first time in the history of the nation for concerted political action.

The platform of this new party is simple, having only one plank—national woman suffrage to be written into the constitution of the United States. The party, it is announced, will work independently of all other political organizations, and its only aim will be to secure the immediate passage of the Susan B. Anthony amendment.

The suffragists who are working for this convention are proposing to form an independent party of women voters from the western states, to support the plea of eastern women for political enfranchisement. They propose to do this by utilizing the vote of the western women for the good of the women in the east. They are attempting to obtain the solidarity of the labor vote, which by its support or non-support of either political party wins legislation for the good of labor. Twenty-three prominent women from the east made a tour of the continent a short time ago, to act as heralds of the convention and to win western women to unite with them in their demand for the ballot. That this new movement has spread widely through the west was stated by a California woman a short time ago, and this would appear to be true from the number of western women answering the call to the convention in Chicago.

The women who are organizing the women's party have announced that their "hats are in the ring." They are to have a regular political convention on the same days the republican and progressive parties have theirs, in the same place. This, the leaders declare, indicates no cohesion with the republican and progressive parties, but an entirely independent party of women voters, organized along recognized lines, for the purpose of working more intelligently and unitedly for the enfranchisement of American women.

The new Liberty Gate hat of the woman's party is being worn extensively by pretty girls and women in New York, New Jersey, the District of Columbia and elsewhere, preparatory to the flooding of Chicago with the hats and their wearers during the week of June 5. Many of these hats will probably be kept as heirlooms by their owners, and handed down to future generations as mementoes of the initial entrance of women into the nation's politics.

Chicago girls have volunteered to act as newsmen during the convention, and many of them are now to be seen on the corners of principal business streets, selling suffrage papers, and distributing programs of the convention.

The fact that 4,000,000 women will be able to cast their votes for president of the United States through their electors next November gives the woman's party real political importance. The women claim that one-fifth of the electoral vote and one-third of the vote necessary to elect the president of the United States comes from states where women vote on the same terms as men, and that if they can bring even a small proportion of these votes to the support of the suffrage amendment, no political party will be strong enough to withstand them.

Women do vote for president in twelve states, and these states control one-fifth of the electoral college and cast one-third of the vote necessary to elect a president. In the past five presidential elections not one of these twelve states has gone steadily for any one party. Women vote equally with men in eleven states for members of both houses of congress. Twenty-two senators and forty members of the house of representatives come from those states where women vote.

In all the presidential elections since 1896, in those states where women vote, the average change of votes necessary to turn an election over to the other party has been 9 per cent of the total vote cast. Since 1896 six congressional elections have been carried by a majority of less than 80 votes, 28 by a majority of less than 500, 17 by a majority of between 500 and 1000. In 23 of these 361 elections less than 10 per cent of the total vote cast would

have sufficed to change the result. So the women believe that their new party will be a deciding factor in the election in many states. They claim the power to make or break a party, and this power they will use to compel legislation granting them the vote.

Only the voting women from the west will be allowed to vote at the woman's party convention at Chicago, but all states are being urged to send as large a delegation as possible to assist in the work of the convention. Kansas will send 200 delegates, California 200, and other states in proportion.

The western women are interested in the question of national suffrage for all the women of the United States on equal terms with men, for practical as well as altruistic reasons. Congress decides upon issues of vital importance to the women of the west, such as the woman homesteaders' act, the married woman's citizenship act, and so forth, and congress can not be brought to the woman's point of view on these questions which belong peculiarly to women until the women of the nation are enfranchised and are able to make their voice heard on national legislation. Then too, it hurts the western woman's sense of pride in her citizenship that that citizenship should be lost to her by the act of crossing a state line. One western newspaper stated recently that "the time had come when the fact must be realized that no political leader can hope to ignore the demands of the women of the east and keep the favor of the women voters of the west."

The women as a body are not opposed to either of the old parties. Many of the western women most prominent in the coming convention have campaigned for President Wilson. They are banding together they say, to put principle above party in the establishment of a great independent party of women, outside partisan lines, and refusing to support any party which will not write justice to women into the fundamental law of the land.

The spirit of the democratic women who may be called on to boycott their own party in order to win what they consider justice to women, is illustrated by one suffragist with an anecdote from the European war. A French Zouave found himself surrounded by enemies masquerading in the uniforms of his dead comrades, being marched with them against a French trench, where unsuspecting Frenchmen were ready to welcome the supposed friends, he cried out "For God's sake, comrades, fire!" The day was saved and the Zouave became simultaneously a hero and a dead man. This is the spirit, says the suffragist, that seems to be actuating the women today. "Sacrifice our friends if necessary, for the cause of justice."

It is stated as the hope of the women's convention that the new party will be strong enough to control the complexion of the presidential vote in many states, and thereby make an equal suffrage plank an essential of a successful party platform.

MRS. D. STECKER IS AUTHOR OF SUNDAY SCHOOL PAGEANT

Work of Former Lima Pastor's Wife Adopted For State Meet.

Will be Feature of Ohio Convention at Findlay, June 20.

Friends of Mrs. Mabel P. Stecker and parishioners of Epworth Methodist church, where for some years the Rev. Daniel Stecker, her husband, was pastor, will be interested to know that Mrs. Stecker has written the novel pageant for the Ohio State Sunday School convention. It is entitled "The Christian Conquest," and is a missionary pageant in two parts. The convention will be held in the Methodist church at Findlay on June 20-22.

The pageant was first staged in the Methodist church at Findlay, where the Rev. and Mrs. Stecker now reside. He has retired from the active ministry. He was pastor at Epworth church before the present pastor, the Rev. M. C. Hower, came to Lima.

The pageant was originally prepared as an Easter program and will be given on Wednesday evening of the convention, when women hold their missionary gathering at the convention. Mrs. Stecker has largely re-written and enlarged the pageant, since it was given its first presentation. It will take up the biggest part of the evening's program.

Thirty-one adults and a large number of children are necessary to carry out the production. There is a musical prelude, choruses and several solos. All the characters will appear in costumes of the Orient. The pageant is laid in the first century of the Christian era.

Mrs. Stecker received her education at Delaware, having been graduated at Ohio Wesleyan with the degree of Bachelor of Arts in 1894. Three years later she secured her Master's degree. She taught in the High school at Washington Court House, and later was assistant principal. Since her marriage to the Rev. Mr. Stecker, she has given her whole time to church work.

She is secretary of the young people's work in the West Ohio Conference and has been secretary of the Woman's Foreign Missionary society of the Methodist church. She is missionary superintendent of the Methodist Sunday school at Findlay and it was in this connection she prepared and produced the pageant. It is likely it will be published and become an authorized feature of Sunday school work in the United States. Expressions of approval concerning it have come to Mrs. Stecker from every source.

"NO CAUSE OF ACTION" IS AUTO DAMAGE CASE VERDICT

The jury which yesterday heard the case of Philip Pfeiffer, acting for Eunice Stone, a minor, against Benjamin J. Thomas, for damages in the sum of \$5,000, took only a few minutes to decide there was "No Cause of Action". The child was struck by Thomas and his automobile near Robb avenue at nightfall about a year ago. The child's leg was broken and she was bruised and cut. She was in the road at the time and Thomas claimed he could not see her because of an approaching automobile, which lights were not dimmed.
